

**TO: HEALTH OVERVIEW AND SCRUTINY PANEL
12 JANUARY 2017**

**THE PATIENTS' EXPERIENCE
Assistant Chief Executive**

1 PURPOSE OF REPORT

- 1.1 This report invites the Health Overview and Scrutiny (O&S) Panel to review the current information from the NHS Choices website, for the National Health Service Foundation Trusts providing most secondary and acute NHS services to Bracknell Forest residents.

2 RECOMMENDATIONS

That the Health Overview and Scrutiny Panel:

- 2.1 **Considers the NHS Choices information concerning the nearby NHS Trusts, at Appendix 1.**
- 2.2 **Determines whether to make any further enquiries based on the NHS Choices information.**

3 SUPPORTING INFORMATION

- 3.1 The Health O&S Panel has previously decided to obtain direct knowledge of the service user's perspective of public services, also on mortality rates in hospitals, through a regular flow of relevant and timely information about the quality of NHS services provided to Bracknell Forest residents. This is to include inpatient survey results and the NHS Choices information.

NHS Choices Website

- 3.2 NHS Choices (www.nhs.uk) is the UK's biggest health website. It provides a comprehensive health information service, including more than 20,000 regularly updated articles. There are also hundreds of thousands of entries in more than 50 directories that can be used to find, choose and compare health services in England.

The site draws together the knowledge and expertise of:

- NHS Evidence, formerly the National Library for Health
- the Health and Social Care Information Centre (HSCIC)
- the Care Quality Commission (CQC)
- many other health and social care organisations

Explanatory Notes

NHS Choices User Ratings

The proportion of the people who rated this hospital on NHS Choices who would recommend the organisation's services to a friend.

Care Quality Commission Inspection Ratings

As the independent regulator for health and adult social care in England, CQC check whether services are meeting their national standards of quality and safety.

Recommended by Staff

This measure shows whether staff agreed that if a friend or relative needed treatment they would be happy with the standard of care provided by the trust. The results are taken from the most recent national NHS staff survey.

Open and Honest Reporting

This is a new indicator that combines several other indicators to give an overall picture of whether the hospital has a good patient safety incident reporting culture.

Mortality Rate

Whether the rate of deaths for an NHS Trust is better or worse than expected for the Trust based on the type of cases treated. The adjusted mortality ratio reflects deaths in hospital and within 30 days of discharge.

Food: Choice and Quality

This indicator shows the results of the 2014 Patient-Led Assessments of the Care Environment, and shows a combined score for choice and quality of food.
