He was asleep and proved difficult to wake up, had marks on his head where he hit the ground and everytime we sat him up he collapsed again. Ambulance attended and took him to RBH for treatment. Male is front London and believed to have come to Bracknell for work.	Was first seen by us at around 1040, he was saying he couldn't get on a train as they would not accept his oyster card and to speak with police. He said he had no money or bank card. Was advised to call a friend but he said his battery was flat, we took him to the free charging point and plugged his phone in for him. C8688 asked why he was in Bracknell and he said to get work driving but they had no work for him, she then asked if he had been drinking and he said yes but now had a bottle of water. He was left there, later we checked the phone charging point and he had left, the water bottle he had was discarded there and C8688 smelt it and there was a smell of alcohol in it.
