Consent to Share Information

The Leaving Care Service work with lots of organisations and teams in our work with young people. We go to meetings with Housing, Careers services, the DWP, Health and Adults Social Care Services and others to make sure that the young people that we work with get the best opportunities and outcomes. An example would be the Young People's Housing Resource Panel where we look at all the young people in Bracknell who do not have accommodation and we get people like Housing and Look Ahead to help us come up with a solution for them.

We will only share relevant information with other professionals and we will normally do so only with your agreement. We want to make sure that you understand that we will review the situation at every Pathway Plan and that you can change your mind at any stage. We will only share information without your consent in exceptional circumstances, such as when we believe that you or a child or young person may be at risk of significant harm, or an adult may be at risk of serious harm, or to prevent, detect or prosecute a serious crime.

We want to make sure that by giving the consent, you fully understand what they are consenting to: You are allowing us to discuss:

- your current situation and any relevant past experiences,
- your current opinion, our assessment and the actions from your Pathway Plan

I give consent for my Leaving Care Personal Advisor to share the information above with the following organisations, as part of supporting me to get the outcomes that I want:
