Dear Sir

I have a couple of Questions About Prestige Car

Section:

I drive a Saab 95 1.9 Diesel on Corporate work ^{and} have never had any problem with my customers does this mean I will not be able to use my car when it needs servicing in May 10

also you say a) "Be a four door saloon motor car and not a hatchback". Well I beg to differ as the Skoda Superbe is a new model which is ideal for my work I think this car should be allowed as it is a clever car which incorporates a hatch + boot please look before you set your list

P. Allen
