1. **TITLE:** Site Allocations Development Plan Document

2. **SERVICE AREA:** Environment, Culture & Communities

3. **PURPOSE OF DECISION**

To approve a draft version of the Site Allocations Development Plan Document for consultation.

4. **IS KEY DECISION** Yes

5. **DECISION MADE BY:** Executive

6. **DECISION:**

1 That the proposed consultation approach and the accompanying consultation document be endorsed.

2 Minor changes to the consultation document be agreed with the Executive member for Planning and Transport and Economic Development in consultation with the Chief Officer Planning and Transport.

7. **REASON FOR DECISION**

The SADPD is an important element in securing delivery of the vision set out in the Council's adopted Core Strategy and ensuring that we meet our obligations to secure a robust and flexible supply of land to meet the Borough's future development requirements.

It is important that the local community and other stakeholders are properly engaged in the process of identifying locations for the Borough's future development. Production of the SADPD will also help the achievement of the Council's medium-term objective 3 - 'To promote sustainable housing and infrastructure development' which includes 'producing a Local Development Framework that protects the Green Belt and balances the demand for new housing with the need to protect the wider environment'.

8. **ALTERNATIVE OPTIONS CONSIDERED**

It is a statutory requirement under the planning regulations to carry out proper consultation on Development Plan Documents. There is an option of delaying production of the SADPD. This was considered by the Executive and Officers, particularly in light of indications that a Conservative Government would abolish Regional Spatial Strategies. However, in the absence of clarity on what would replace RSSs and the desire to maintain effective control over future development, it was agreed with the Executive that the Council should continue to plan for the quantum of development set out in the South East Plan to ensure that we are planning for change and not reacting to it.

The option of not identifying sites for future development would leave the Council vulnerable to the pattern of development in the Borough being led by developers and land owners

through planning applications and potentially costly planning appeals rather than through the plan-led system that forms the basis of the government's approach to planning.

1. **TITLE:** North Bracknell Bus Contracts
2. **SERVICE AREA:** Environment, Culture and Communities
3. **PURPOSE OF DECISION**

To award a contract to provide local bus services on a number of routes, principally to the north of Bracknell.

4. **IS KEY DECISION** No
5. **DECISION MADE BY:** Executive

6. **DECISION:**

- 1 A contract for operation of buses as follows, as specified in the invitation to tender, be awarded to the company submitting the lowest tender:

BFC 46 : Bracknell – Binfield
 BFC 47 : Bracknell – Bullbrook
 BFC 48 : Bracknell – Ascot
 BFC 49 : Bracknell – Wokingham
 BFC 50 : Bracknell – Winkfield
 BFC 51 : Bracknell – Wexham Park Hospital
 BFC 52 : Bracknell – Bullbrook / Binfield / Warfield (early evening)
 BFC 53 : Bracknell – The Parks
 BFC 54 : Bracknell – Warfield

- 2 The combined bid for operation of the above services as a single contract from the contractor identified in the confidential annexe (available to members of The Executive only) be accepted.

7. **REASON FOR DECISION**

While other bidders offered the lowest compliant individual price for each contract, the recommended contractor's price for operation of all the contracts at a combined price offers a significant saving compared to the individual lowest bids for the contracts, and a saving over any other operator's similar combined bid.

The tender submitted meets the requirements of the specification in the most cost effective manner.

These services contribute towards a number of the Council's medium term objectives, i.e.

- 1 "To build a vibrant Bracknell town centre that residents and businesses are proud of by ... improving access to the new town centre by providing ... more buses "
- 3 "To promote sustainable housing and infrastructure development by Implementing

the Local Transport Plan “

7 “Seek to ensure that every resident feels included and able to access the services they need”

9 “To promote independence and choice for vulnerable adults and older people”

The Departmental Service Plan includes a commitment to implement the Local Transport Plan, and recognises the performance indicator NI177 (local bus journeys made in the Borough.) Approximately 318,000 passenger journeys per year (17 % of the bus journeys made in the Borough) are made using these services.

8. **ALTERNATIVE OPTIONS CONSIDERED**

Acceptance of a higher priced tender offers no significant benefits to passengers.

Failure to let a contract will result in the loss of local bus service provision to many parts of the Borough, including rural areas, and to urban areas with a high concentration of senior citizens. Failure to let a contract will also risk the loss of external funding in the form of Rural Bus Subsidy Grant and contributions from neighbouring authorities, and will breach the planning agreement in respect of The Parks.

For each service, the option for operators to suggest alternative timetables was offered, and for many routes, quotes were also sought for an ‘Option B’ which involved a reduction to the existing timetable, in case the current level of service could not be continued within the existing budget. In the event, the recommended contractor’s bid is for ‘Option A’ for all services, and (with the exception of The Parks) no change to existing routes or timetables is proposed. Since this can be met within the existing budget, and no lower bids for an ‘Option B’ network were received, there is no direct need to consider service reductions. However, accepting service reductions and reducing costs further is an alternative that Members might consider.
