

1. How can we identify the most lonely and isolated?
2. Do you know of any services locally that prevent loneliness and social isolation?
3. Are there any clear gaps in services locally that we can identify?
4. How can we try to find out from harder to reach groups of people?
5. How can we work with local services to develop schemes to identify and refer lonely and isolated people to local activities to alleviate loneliness? (For example social prescribing and 'home from hospital' services)
6. What is our transport and technology provision like for people in the borough?
7. What volunteering opportunities are available locally for people?
8. Are there services or opportunities for people available close enough to their neighbourhood?
