## 1. Background (extracts from PID)

<b>PID version number</b>	2.0
<b>PID date</b>	17 Feb 16
<b>PID project description (taken from the PID)</b>	The review of the Council's leisure services will ensure that all residents can benefit from an attractive, high quality leisure offer in the borough, and that what we do is done well. We will prioritise people and areas with the greatest need, so that people can maximise their opportunities to be fit, active and healthy. We will reduce the overall subsidy for leisure services by ensuring our prices are structured competitively in line with the target market. The review will create a sustainable, long-term plan for the borough's leisure activities that reflects the future needs of the Borough.
<b>PID aims (taken from the PID)</b>	<p>The project will review the Council's role in supporting and providing leisure opportunities in the borough. The initial aims of the project are:</p> <ul style="list-style-type: none"> <li>• To review the Council's provision of leisure services and facilities using the 6 key commissioning questions.</li> <li>• To map what leisure provision, services and activities exist in the borough, who provides it and what strategic fit exists between all providers.</li> <li>• To determine the Council's future role in the leisure market in the borough and its level of subsidy.</li> <li>• To explore and assess alternative delivery models and partners for each leisure facility/service.</li> </ul>
