Section 1: Director's Commentary

This final Quarterly Service report concludes 2015/16. The majority of actions in the service plan have been completed or are on track and performance against the indicators is generally good apart from some cross-Council HR indicators.

Following a very challenging financial settlement the Council agreed its budget and council tax for 2016/17 on 24 February. Further savings proposals are currently being consulted upon with the aim of ensuring the Council's medium term financial strategy is sustainable.

The original Organisational Change Process reached its conclusion with redundancies effective from 31st March 2016; however further Organisational Change programmes commenced during the quarter after Government settlements were announced. Consultation periods are on-going.

Significant changes in service use and associated financial impact:

None highlighted

Areas where performance has been more difficult are:

There are four indicators which are currently more that 10% below target all related to BFC staff council wide:

- The percentage of the top five percent earners with a disability, council wide (L068) has increased slightly in the last year to 3.22% but this is still short of the 5% target. There are the same number of employees in the top 5% with a disability as last year but the cohort in the top 5% has decreased slightly leading to a slightly increased percentage figure.
- The percentage of employees with a disability, council wide (L070) has decreased from 1.96% in 2014-15 to 1.87% in 2015-16 against a target of 3%. The numerator has increased from 69 to 71 but there is a larger number of staff across the Authority on the HR system.
- The percentage staff voluntary turnover, council wide (L130) has increased from 13.41% in 2014-15 to 14.33% this year against a target of 13%. 72% of the voluntary leavers were within schools. The non schools voluntary turnover stands at 10.2%.
- The average number of working days lost to sickness per employee, council wide increased to 5.9 days per employee from 5.2 in 2014/15 against a target of 5 days. All departments including schools have increased slightly and Long Term Sickness has gone up by 1%. The national average for Local Government however is over 8 days per employee so BFC remains well below that level.

Areas where risk is closely monitored:

The departmental risk register was reviewed by the Departmental Management Team on 31st March 2016. The key changes made were:
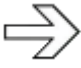

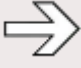

- To increase the likelihood for the risk trigger on business rates changes and avoidance schemes;
- To reduce the likelihood for the risk trigger on risk of successful challenge to decisions on changes to service provision due to mitigating actions on equality impact assessment and consultation;
- To increase the likelihood of the capital projects risk and add in a risk trigger on the disadvantageous market for buying land and securing tenders for work due to conditions in the estate market and construction industry; and
- To increase the likelihood for the elections risk.

Limited Assurance Internal Audit Reports

During quarter 4, 3 limited assurance reports were issued on payroll, accounts payable and business rates collection.

The annual average for 15/16 is 5.68 days which is higher than the authority figure for 14/15. It is also slightly higher than the Corporate Services figure for 2014/15 mainly because of the effect of the long term sickness days. Section 6: Money

Revenue Budget

The original cash budget for the department was £14.243m. Net transfers of £0.467m have been made bringing the current approved cash budget to £14.710m. A detailed analysis of the budget changes in this quarter is available in Annex B.

The forecast outturn for the department is £0.252m under the current approved cash budget. A detailed analysis of the variances this quarter is available in Annex B

The department has identified the following as budgets that can pose a risk to the Council's overall financial position, principally because they are vulnerable to significant changes in demand for a service. The current position with regard to each of these is as follows:

Service Area	Budget £000	Forecast Outturn £000	Comments
Commercial Property	(1,879)	(1,904)	Increased voids and void periods, resulting in reduced income.

Although these budgets pose a risk to the Council, careful management has ensured that there is little adverse impact forecast at this point.

Capital Budget

The total approved capital budget for the year is £14,590.9m.

Expenditure to date is £6,667.2m representing 46% of the budget. The Department anticipates 53% of the total approved budget to be spent by the end of the financial year, and 46% to be carried forward to 2016-17. CORPORATE SERVICES / CX OFFICE QSR4 – DECEMBER 2015 TO FEBRUARY 2016

Note	Total £'000	Explanation
	-3	*Variances reported in QSR3 Period*
1	0	**Operations Unit** A much more rigorous interpretation of the SEN Transport Policy by the SEN team resulting in transport not being offered to children under statutory school age and requests for distances to be measure to ensure that those students who are able to walk do so if they live under statutory walking distances. In addition to this we are no longer operating some of our more expensive routes due to changes in arrangements. There has also been a reduction of almost 50 students requiring mainstream transport to Charters School. Finally at the moment we appear to putting fewer families in bed and breakfast accommodation outside of the borough None of the above can be guaranteed for the next academic year as this service can change on a daily basis, plus there is a contract review in 2016-17. The total underspend to report is £0.112m. This underspend has been reversed as it has been used to part fund the DSB costs of the Director of Transformation.
2	-50	**Operations Unit** Work has been undertaken to identify the council wide framework savings which formed part of the 2014/15 budget process. 4	-13	**Democratic & Registration Services** Democratic & Registration Services have identified various underspends including: Member & Mayoral Services - £10k, members allowances, refreshments, telephony, equipment, mileage, vehicle hire and seminars. Committee Services have identified £2k from training and printing
5	5	**Legal Services** A pressure has been identified on the services budget due to the need for training on the IKEN system.
6	-25	**Operations Unit** Various underspends have been identified within the Operations Unit including the Courier Service £0.003m, Office Services £0.005m, Refreshment service £0.002m, Integrated Transport Unit £0.010m and Postal Services £0.005m.
7	-35	**Industrial and Commercial Properties** Due to a high turnover, automatic stepped rents and rent reviews, income in excess of the budget has been received from the Peel Centre.
8	-4	**Community Engagement and Equality** Due to the work of the Transformation Board, the production of a guide on public services for new migrants to the borough and supporting volunteering promotions in

the borough was not able to be completed and so a carry forward has been requested.

9	-9	**Web Services**

Web Chat (Netcall) is a project that would have taken place in February/March, however, this has been put back to April/May due to a delay in the main Netcall Upgrade project which is being managed by another team and so a carry forward has been requested.

10	-108	**Operations Unit**

More rigorous implementation of the SEN Transport Policy, in particular towards Parental Preference Applications has resulted in reduced costs. If a child is allocated a place in a particular school but the parents choose to send them to a different school, perhaps outside of the Borough, the parents would have to cover the transport costs to that school.

Personal Transport Budgets (PTB) have also been issued to some parents whereby if there is not a current route to that school, the parents are offered the option of transporting their own child and the Council reimburses them. This can create a large saving as the Council does not need to fund an extra vehicle, driver and escort. The introduction of these budgets can also change the entire dynamics in that different vehicles could be used for particular routes or children can switch to other routes thus reducing the number of vehicles/routes.
