

**TO: HEALTH OVERVIEW AND SCRUTINY PANEL  
30 JUNE 2016**

---

**THE PATIENTS' EXPERIENCE  
Assistant Chief Executive**

**1 PURPOSE OF REPORT**

- 1.1 This report invites the Health Overview and Scrutiny (O&S) Panel to review the current information from the NHS Choices website, for the NHS Foundation Trusts providing most secondary and acute NHS services to Bracknell Forest residents.

**2 RECOMMENDATIONS**

**That the Health Overview and Scrutiny Panel:**

- 2.1 **Considers the NHS Choices information concerning the nearby NHS Trusts, at Appendix 1.**
- 2.2 **Determines whether to make any further enquiries based on the NHS Choices information.**

**3 SUPPORTING INFORMATION**

- 3.1 The Health O&S Panel has previously decided to obtain direct knowledge of the service user's perspective of public services, through a regular flow of relevant and timely information about the quality of NHS services provided to Bracknell Forest residents. This is to include inpatient survey results and the NHS Choices information.

NHS Choices Website

- 3.2 NHS Choices ([www.nhs.uk](http://www.nhs.uk)) is the UK's biggest health website. It provides a comprehensive health information service, including more than 20,000 regularly updated articles. There are also hundreds of thousands of entries in more than 50 directories that can be used to find, choose and compare health services in England.

The site draws together the knowledge and expertise of:

- NHS Evidence, formerly the National Library for Health
- the Health and Social Care Information Centre (HSCIC)
- the Care Quality Commission (CQC)
- many other health and social care organisations

## Explanatory Notes

### **NHS Choices User Ratings**

The proportion of the people who rated this hospital on NHS Choices who would recommend the organisation's services to a friend.

### **Care Quality Commission Inspection Ratings**

As the independent regulator for health and adult social care in England, CQC check whether services are meeting their national standards of quality and safety.

### **Recommended by Staff**

This measure shows whether staff agreed that if a friend or relative needed treatment they would be happy with the standard of care provided by the trust. The results are taken from the most recent national NHS staff survey.

### **Open and Honest Reporting**

This is a new indicator that combines several other indicators to give an overall picture of whether the hospital has a good patient safety incident reporting culture.

### **Infection and cleanliness**

This is a new combined (composite) indicator that describes how well the organisation is performing on preventing infections and cleaning. It is constructed from the existing data displayed on NHS Choices regarding the number of C. difficile and MRSA infections and patients' views on the cleanliness of wards.

### **Mortality Rate**

Whether the rate of deaths for an NHS Trust is better or worse than expected for the Trust based on the type of cases treated. The adjusted mortality ratio reflects deaths in hospital and within 30 days of discharge.

### **Food: Choice and Quality**

This indicator shows the results of the 2014 Patient-Led Assessments of the Care Environment, and shows a combined score for choice and quality of food.
