Our new hospital and the New Hospital Programme

Hospital 2.0

A fantastic opportunity

We are delighted that we have been included in the government's New Hospital Programme

- We are delivering a new state-of-the-art replacement for Frimley Park Hospital by 2030
- Building a hospital on the current site is not a viable option:
 - it would cause **significant disruption** to our patients, staff, and hospital services
 - it would be **more expensive**
 - it would be **impossible to complete** a phased build by our deadline of 2030
- As a result, we are now actively looking at alternative locations for a replacement for Frimley Park Hospital.

Public and staff engagement: November 24 – 7 January

Engagement period – how did we promote it?

NHS
Frimley Health
NHS Foundation Trust

Tell us what's important to you about the site for your new hospital

We're delighted to be part of the government's New Hospital Programme that will see us build a new state-of-the-art replacement for Frimley Park Hospital.

We plan to develop one of the best healthcare facilities in the country – it will provide the modern and efficient environment our patients and staff deserve.

The new hospital will need to be built on a new site, and so we're asking our patients, staff, and local people what's important to you about the site for your new hospital.

We'd like to know what you think of the criteria we are developing to assess potential sites.

Committed to excellence Working together Facing the future

Engaging on the site criteria

Site location criteria

Distance from current site

Access by car

Distance from key highways

Access by foot and cycle

Access by public transport

Consideration of health inequalities and deprivation

Planning and restrictions criteria

Expansion potential

Local noise and pollution

Development height parameters

Purchasing the site criteria

Availability of land

Appetite to sell

Readiness to sell

Between 24 Nov – 7 Jan we wanted to hear from as many people as possible about which of our options criteria matter most to them

Engagement period – what did we do?

3400

Online respondents
