Subject: Fwd: Application for variation of hours for existing street trader - Leppington Car Park, Bracknell

Dear Charlie, I am in agreement with Cllr Gill Birch that 4.30pm is a peak pick up and drop off time in the Leppington car park and the car park is popular at various times of the day because of the nursery, Hedgehog Park, the community centre, doctors, library, shops, hairdresser and school. 1730 is early enough, I don't think trading is necessary before then and local residents have expressed concerns that they cannot use the allocated spaces in the daytime when there is no trading, perhaps something can be done about that.

Kind regards
Sandra
