DATE: 16 JULY 2020

---

**2019-20 FUNDING ALLOCATIONS TO MAINSTREAM SCHOOLS FROM  
BUDGETS CENTRALLY MANAGED BY THE COUNCIL  
Executive Director - People**

**1 PURPOSE OF REPORT**

- 1.1 The purpose of this report is to present information on the in-year allocation of funds to mainstream schools through School Specific Contingencies and other budgets that are funded from the Dedicated Schools Grant (DSG) and in the first instance centrally managed by the council. It also presents the opportunity to amend existing funding policies. These funds relate only to mainstream schools.

**2 EXECUTIVE SUMMARY**

- 2.1 The funds used to provide targeted support to schools meeting qualifying criteria allocated £0.961m in 2019-20 an overall under spend of £0.254m. This helps to fund unpredictable and sometimes significant additional costs that only a small number of schools face and which the simplified funding formula lacks the required sensitivities.
- 2.2 The associated policies that provide consistency and transparency of operation are considered appropriate and fit for purpose with no changes being proposed.

**3 RECOMMENDATIONS**

**The Forum:**

- 3.1 **NOTES** the following funding allocations to schools, made in accordance with approved policies;
1. **£0.067m for significant in-year increases in pupils (paragraph 6.9);**
  2. **£0.101m for schools required to meet the Key Stage 1 Class Size regulations (paragraph 6.13);**
  3. **£0.565m for new and expanding schools (paragraph 6.16);**
  4. **£0.030m for schools with a disproportionate number of SEN pupils (paragraph 6.22);**
  5. **£0.198m for schools in financial difficulty (paragraph 6.28);**
  6. **No allocations were made from the general schools contingency (paragraph 6.30Error! Reference source not found.).**
- 3.2 **AGREES** that no changes are made to the current funding policies (paragraph 6.32).

## **4 REASONS FOR RECOMMENDATIONS**

- 4.1 To ensure that the Schools Forum supports how centrally managed funds have been allocated to mainstream schools and is aware of the total amount and schools involved.

## **5 ALTERNATIVE OPTIONS CONSIDERED**

- 5.1 These were considered as part of the budget setting process, including not setting aside contingency funds.

## **6 SUPPORTING INFORMATION**

### Background

- 6.1 Members of the Forum will be aware that the funding framework for mainstream schools is regulated by the DfE and that this governs the conditions attached to how funds can be allocated to schools. It also sets out the circumstances in which funds can be centrally managed by LAs and how in-year allocations can be determined.

- 6.2 As part of the budget setting process, the Forum agreed that the following six budgets should initially be managed by the LA, for in-year allocation to schools:

1. The Growth Fund: Comprising:
  - a. significant in-year increases in pupil numbers;
  - b. schools required to meet the Key Stage 1 Class Size regulations;
  - c. new and expanding schools.
2. SEN specific contingency;
3. General Schools Contingency: Comprising:
  - a. Schools in financial difficulty;
  - b. General Schools Contingency.

- 6.3 In accordance with the funding framework, items 1 and 2 above are held as centrally managed budgets, available to support both maintained and academy schools.

Item 3 is a de-delegated budget and supports maintained mainstream schools only. De-delegated funding is initially included in individual school budget allocations, but returned from maintained schools for central management, following agreement of the Schools Forum.

Maintained schools that meet the agreed qualifying criteria then receive in-year funding allocations, whereas academy schools retain their relevant share of the funds to manage locally.

- 6.4 This annual report is presented to confirm individual funding allocations and to provide an opportunity to review the relevant funding policies.

1. Growth Fund allocations - £977,960 total budget (applies equally to maintained mainstream schools and academies that meet qualifying criteria).

a. Significant in-year increases in pupil numbers - £342,500 budget

- 6.5 To provide in-year financial support to schools experiencing significant increases in statutory aged pupil numbers, LAs are permitted to retain funding in a Growth Fund for allocation once qualifying criteria is met. This reflects the requirement of the DfE to calculate school budgets on actual pupil numbers prior to the start of the financial year which means there is no recognition of in-year increases which in some cases will have a significant impact on costs.
- 6.6 To provide additional resources to schools facing in-year increases, the Schools Forum has agreed that funding allocations should be made where there is a significant increase in pupils between the census point used for funding school budgets and the actual intake at the start of the next academic year. The relevant thresholds and funding rates are:
- less than 2 FE schools = increase of 10 pupils, at half the core funding rate
  - 2 FE schools = increase of 20 pupils, at the core funding rate
  - 3 FE and above schools = increase of 25, at the core funding rate
- 6.7 Admitting additional pupils at these levels is considered the point at which relevant schools would most likely experience significant cost increases. The general expectation is that schools can absorb additional pupils up to these numbers without having to incur any significant cost increases.
- 6.8 The core funding allocation is based on the cost of employing a Teacher at Main Scale Point 6 for the autumn and spring terms only. This is a short term funding measure as on-going funding beyond this point would be included in the next year's budget as relevant pupils would be on the October census used for funding purposes and are therefore taken into account in the next year's budget calculation. Annex 1 sets out the full policy which is proposed to remain unchanged.
- 6.9 Based on actual changes in pupil numbers, Brakenhale academy was the only school to qualify for an allowance from September 2019 in the value of £29,100. This compares to 11 expected in the budget which was set on the average number of payments made in the last 3 years and reflects more stable pupil numbers than in the recent past.
- 6.10 Furthermore, as academy schools receive academic year budgets the Education and Skills Funding Agency (ESFA) provides additional funding for the spring term. This is because the extra pupils are not reflected in their budget until September, rather than April for maintained schools. The council received an additional £37,800 from the ESFA through this route for funding due in the period April – August 2020; £19,800 for both Jennetts Park Primary and Brakenhale Secondary, which was passed on to the relevant schools. Total allocations therefore amounted to £66,900 with a resultant under spending of £275,600. Annex 2 sets out individual school calculations and other relevant data.

b. Schools required to meet the Key Stage 1 Class Size regulations - £60,000 budget

- 6.11 In a similar way to that in which funds can be retained for allocation in year to schools experiencing significant increases in pupil numbers, LAs are also permitted to create a contingency to allocate funds to support schools facing additional costs to ensure Key

Stage 1 class size regulations to limit classes to no more than 30 pupils per teacher are not breached. Again, this allows the targeting of funds to schools facing real cost pressures that the Funding Formula is not permitted to deal with.

- 6.12 The Forum has agreed that where the aggregate number of Key Stage 1 pupils does not equate to a multiple of 30, additional resources will be added at the amount required to cover the cost of appointing a Teacher on Main Scale Point 6 for the relevant period, after taking account of the funding delivered through the Funding Formula. Top up funding is provided on a “missing pupil” basis and is calculated at the amount required to meet teacher costs only. Based on the current values in the Funding Formula, 15 pupils deliver sufficient resources to employ a teacher. Therefore, the maximum top-up funding a school can receive is for 15 ‘missing’ pupils.
- 6.13 Based on actual changes in pupil numbers for the 2019 summer and autumn terms, and the spring term 2020, 7 schools are entitled to additional funding, which aggregates to £101,665 resulting in an over spending of £41,665. Annex 4 sets out individual school allocations and other relevant data.
- 6.14 To avoid double funding, if the same pupils result in schools receiving funding through the *significant in-year increase in pupil numbers* category then any Key Stage 1 specific funding is disallowed. The relevant qualifying criteria are set out in Annex 3 which is proposed to remain unchanged.
- 6.15 As part of the DfE response to coronavirus pandemic, to reduce burdens on schools, the May 2020 pupil and other data census was cancelled. Ordinarily, data from this census is used to fund schools for summer term allocations. As there is a close correlation between numbers on the January and May census returns - over the last 3 years no change in over 30% schools, change of no more than 2 NOR in over 75% - the January 2020 numbers will be ordinarily be used as a proxy for May 2020 numbers, with schools given the option to provide their own numbers if they preferred.

c. New and expanding schools - £575,190 budget.

- 6.16 With the new Kings Group (KGA) Academy Binfield open to secondary aged pupils from September 2018 and primary aged pupils from September 2019 and KGA Oakwood Primary also open from September 2019, allocations are due from the funding policy for Start-up and diseconomy funding for new and expanding schools, which was reviewed and agreed as part of the 2019-20 budget setting process.
- 6.17 In respect of diseconomy funding – intended to support general running costs when schools have significantly fewer pupils than their capacity - the 2 schools qualified for total funding of £473,884.
- 6.18 For post-opening costs – intended to provide a lump sum amount to equip each new class that is to open with day to day resources – the KGA schools received £22,500 with a backdated payment of £52,500 for Warfield Woodhurst which had yet to receiving funding to equip new classes that had been opened. KGA Oakwood also received £16,300 for pre-opening costs for the period April to August associated with making sure the school could admit pupils.

Total payments for new and expanding schools therefore overspent by £10,000.

- 6.19 As the 2020-21 policy for start-up and diseconomy funding for new and expanding schools was agreed in December 2019, no further changes are proposed at this time.

2. SEN specific contingency - £40,000 budget (applies equally to maintained mainstream schools and academies that meet qualifying criteria. This is the only budget in this report that is funded from the High Needs Block).

6.20 The DfE encourages LAs to allocate additional resources to schools that admit a disproportionate number of pupils with SEN with a clear expectation that this will affect only a minority of schools. The rationale of the contingency is that the normal operation of the simplified Funding Formula does not adequately resource schools for all costs when there is a large concentration of high needs pupils and inclusion of pupils into mainstream schools rather than specialist providers should be encouraged.

6.21 There is no prescribed methodology on how such a fund should work and the scheme agreed by the Forum following consultation schools requires schools to meet both of the following criteria:

1. Where the proportion of pupils on roll classified as high need exceeds 4% of total pupil numbers in a primary school and 2% in a secondary school, and
2. Where the proportion that top up funding paid to support High Needs pupils compared to the total budget allocated via the BF Funding Formula exceeds 2% in a primary school and 1% in a secondary school.

No changes to the policy text are being proposed by the council.

6.22 This resulted in one secondary school receiving an additional funding allocation in the sum of £30,800, resulting in an underspending of £9,200. Annex 5 sets out the calculation of individual school data and eligibility to funding.

3. Schools Contingency: (this is a de-delegated budget and applies only to maintained schools when eligibility criteria met)

*a. Schools in Financial Difficulty - £189,100 budget*

6.23 School Funding Regulations allow for additional funds outside the normal operation of the Funding Formula to be provided to schools considered to be in financial difficulty. In agreement with the Schools Forum, this de-delegated budget has been returned to the Council for central management. The agreed criteria to be used to allocate this funding is if, in the opinion of the relevant Director and Director responsible for Finance, a school:

1. was unable to set a balanced budget and were in need of a loan arrangement at the start of the relevant financial year, and/or
2. was likely to fall into one of the categories of causing concern, including requires improvement and special measures without additional financial support.
3. was a 1 form of entry school judged good or better that has more than 5% empty places

6.24 Where schools enter an Ofsted category of concern this includes those schools judged to be inadequate or requiring improvement the LA holds a declaration of concern meeting and establishes a Standards Monitoring Board (SMB). The Board has an independent chair and senior officers of the LA as members. The headteacher and Chair of Governors of the school are invited to attend the SMB to report on progress. A support plan outlines the actions to be taken by the school and the LA in order to effect rapid improvement.

6.25 In order to allow funds to be allocated within an appropriate time scale, the Forum has agreed to delegate a set of powers to the Director responsible for schools to allocate funds up to but not exceeding £0.15m in any financial year, dependent on the Ofsted category of the school, or where there is considered a risk of being placed in a category.

6.26 The level of allocation of funds would be:

1. schools judged to have serious weaknesses (up to £20k per year)
2. schools deemed to be in need of special measures (up to £50k per year)
3. schools at risk of either judged to have serious weaknesses or entering special measures (up to £30k per year)
4. 1 form of entry schools judged good or better that have more than 5% empty places (up to £20k per year per school and £40k in total)

6.27 Allocations will only be agreed where the relevant school has demonstrated insufficient funds exist within the budget to fund the required actions or activities. The full policy text is set out in Annex 6 which is proposed to remain unchanged.

6.28 Funding allocations for the year amounted to £197,570 which represented an overspending of £8,470. Further details of the allocations are shown in Annex 7.

*b. General Schools Contingency - £8,470 budget*

6.29 Where a primary school faces exceptional, unexpected costs in-year that were not known when the budget was set and it would be unreasonable to expect the school to meet the costs, bids for additional funding can be sought. The Forum has previously agreed that claims are considered on a case by case basis by the Heads of Service covering Finance, Human Resources and Property before formal consideration by the Forum.

6.30 No claims were made by primary schools in 2019-20, resulting in a full underspend against the £8,470 budget.

6.31 The full criteria for making allocations from the General School Contingency is set out at Annex 8 which is proposed to remain unchanged.

Qualifying criteria used to make funding allocations

6.32 To ensure that a consistent and transparent approach is adopted to the allocation of contingency funding to schools, the Forum has agreed a set of eligibility criteria to be applied, and these are attached as annexes to the report. Relevant policies are included in annexes 1, 3, 6 and 8 and paragraph 6.21. The Forum is recommended to agree that no changes are made to the existing policies.

Conclusion

6.33 The funds approved by the Forum to be held by the LA allow for appropriate in-year targeting of resources that is not possible through the simplified Funding Formula for Schools. Current arrangements are considered appropriate and ensure that financial support is provided when needed and that clear and consistent criteria is applied in the allocation of resources.

## **7 ADVICE RECEIVED FROM STATUTORY AND OTHER OFFICERS**

### Borough Solicitor

7.1 The relevant legal issues are addressed within the main body of the report.

### Director of Finance

7.2 The financial implications arising from this report are set out in the supporting information. The allocations meet the requirements of the appropriate funding regulations, the agreed policies and have been taken into account in the financial monitoring arrangements for the Schools Budget.

### Equalities Impact Assessment

7.3 None identified.

### Strategic Risk Management Issues

7.4 None identified.

## **8 CONSULTATION**

### Doc. Ref

K:\Pine\Executive\Schools Forum\98) 160720\2019-20 Funding Allocations from the Schools Contingency.docx

## Criteria for in-year budget allocations to schools experiencing significant growth in pupil numbers

This element of the Growth Fund is ring fenced so that it is only used for the purpose of supporting growth in pre-16 pupil numbers to meet basic need<sup>1</sup>. The fund will be for the benefit of both maintained and Academy schools. For Academy Schools, the funding is for an academic year.

The Growth Fund shall include funding for an allocation to those schools that experience exceptional increases in pupil numbers between the October census used for funding original budgets and actual pupil numbers on roll on the following October census

To assist schools in meeting the additional costs arising in such circumstances, an in-year budget addition will be made where the whole school number on roll from Reception up to Year 11 increases up to the point that significant additional costs are expected to be incurred.

The relevant thresholds for additional funding are:

- less than 2 FE schools = 10
- 2 FE schools = 20
- 3 FE and above schools = 25

With the exception of less than 2 FE schools, the amount of additional funding is calculated from the cost of appointing a teacher on Main Scale Point 6 – salary and employer on-costs - for the period September to March.

Less than 2 FE schools will be funded at half the value of other schools sizes, to reflect the lower additional costs expected to be incurred i.e. it is not expected that such schools would ever need to open a new class and recruit a new teacher.

To calculate whether a school is eligible, the following checks will be carried out:

- For the year of entry, the calculation of additional pupils will be capped at the lower of the actual number admitted or the Published Admission Number (PAN), other than where the need to exceed PAN is agreed in advance with the LA.
- Pupil admissions from parental appeals, LAC pupils and pupils with an EHCP are included in the number on roll when checking that a school has not exceeded its PAN in year of entry; these admissions are generally known by May preceding the start of the academic year.
- Schools can request that the Assistant Director: Education and Learning of Education considers additional funding in exceptional circumstances. These will be considered on an individual case basis.
- An appeal to a decision of the Assistant Director: Education and Learning can be made to the Executive Director: People, whose decision will be final.

---

<sup>1</sup> The DfE define basic need as the statutory duty on local authorities to make sure there are enough school places for children in their local area. This requirement does not extend to individual planning or school designated areas within an authority.

For schools that qualify for this factor the calculation is unchanged from the current methodology that compares the total NOR for statutory aged pupils on roll for the October census in the current financial year with that of the October Census number on roll in the previous financial year.

Where a school does admit pupils above PAN without agreement of the LA, the calculation for a significant growth in pupil numbers will exclude pupils in the year of entry.

There are 2 exceptions to the general policy.

1. This relates to schools that agree with the LA to open a 'surge' class – i.e. one additional class to accommodate up to 30 additional pupils – where additional funding will be allocated irrespective of the actual number of pupils admitted, if the pupils in the 'surge' class are admitted after the census used for funding purposes. The funding allocation will be calculated in the same way as for general in-year growth, applied from the beginning of the term that the 'surge' class is open, [i.e. rather than against the number of months the 'surge' class is open].

Where a 'surge' class opens after the census point used for calculating the school's budget for the next financial year, a further funding top-up will be made to cover the full year cost of a teacher on Main Scale Point 6 and a Learning Support Assistant on Bracknell Forest pay point 12 for the relevant financial year. This funding will be made available for one year only at the commencement of the relevant financial year.

2. This relates to those schools that expand by a whole form of entry. As the current calculation is based on the form of entry at admission, it assumes those schools expanded by a whole form of entry are immediately admitting to all year groups at the increased capacity, when in reality, the increased capacity starts in the entry year, and takes 7 years (5 for a secondary school) to work through the school until admission to full capacity is possible. In order to make a fair calculation of the threshold to be used to calculate in-year growth allowances in these circumstances, the threshold to be used to calculate a growth allowance is calculated on the number of classes available at the census point used to calculate the original budget.

For example, a primary school moving from a 2 form to 3 form entry school has 3 classes in reception in the first year after expansion, and 2 classes in other year groups. The funding threshold for a 2-form entry school is 20 with 25 used for 3 form entry schools. In the first year following expansion, eligibility to growth allocations would be calculated on reception classes at the 25-number threshold, with all other classes at a threshold of 20. For the second year, Reception and Year 1 would be calculated on a 25 threshold, all other year groups on 20 and so on. A full illustration of the calculation is set out below and shows how the funding threshold rises gradually, in line with the phased increase in pupil numbers, starting at 21, and rising to 25 after 7 years.

**Approved by the Schools Forum on 21 November 2019**

**No changes are being proposed by the council.**

**2019-20 Funding allocations to schools experiencing significant in-year growth in pupil numbers**

(1). schools being expanded/contracting have variable funding thresholds relative to the number of new classes available.

(2) new schools are separately funded for pupil growth.

(3) Growth not basic need does not meet criteria.

### **Criteria for in-year budget allocations to schools to meet unavoidable costs arising from the Key Stage 1 class size regulations that limit classes to no more than 30 pupils per teacher**

The Growth Fund shall include funding for an allocation to those schools that experience unavoidable costs arising from the Key Stage 1 class size regulations that are not resourced through the Funding Formula.

Numbers in reception, Year 1 and Year 2 will be collected termly from the relevant school census to determine the total number of pupils in each school affected by the relevant Regulations. Where the aggregate number of pupils does not equate to a multiple of 30, additional resources will be added at the amount required to cover the cost of appointing a teacher on Main scale Point 6 – salary and employer on-costs - for the relevant period, after taking account of the funding delivered through the Funding Formula. Funding will be added on a “missing pupil” basis.

The allocated funding may need to be scaled if demand significantly exceeds the budget allocation, with final decisions to be determined each year by the Schools Forum.

An illustration of the funding calculation is as follows which would need to be updated each year to reflect budget decisions and the cost of employing a teacher (all units of resource are therefore illustrative and subject to change):

- a. The per pupil funding rate is assumed to be £2,780 (A)
- b. The cost of a teacher on Main scale Point 6 – salary and employer on-costs - is £41,700 (B)
- c. To have sufficient income from the Funding Formula to employ a teacher, a school needs  $\text{£41,700 (B)} / \text{£2,780 (A)} = 15$  pupils (C)
- d. The Funding Formula therefore provides sufficient funding to appoint a teacher provided there are 15 pupils. The maximum top-up funding a school can receive is for 15 ‘missing’ pupils (C)
- e. Therefore where the actual number on roll exceeds a multiple of 30 compared to the number on roll funded in the original budget the school would be entitled to top-up funding
- f. Funding will be added, pro rata per term, for each missing pupil  
The attached Annex sets out funding top-up rates, based on the cost of employing a teacher at £41,700 and the BF Funding Formula delivers sufficient funding to appoint a teacher provided there are 15 pupils. These factors and amounts are subject to annual re-calculation.

Children admitted **in-year** as an “excepted pupil” in accordance with The School Admissions (Infant Class Sizes) (England) Regulations 2012, or other relevant legislative requirement will not be included in the calculation for top up funding as they will not impact on the need to recruit a teacher. The exclusion will apply for the full period the child is on roll at the school to the end of Key Stage 1.

“Excepted pupils” currently include those that are admitted to the school outside a normal admission round:

- as a result of the local authority specifying the school in the child’s statement;
- are looked after;
- were in error initially refused admission;

- are from a service family.

“Excepted pupils” on the roll of a school at the October census will generate per pupil funding for a school in the next budget. These funds will be taken into account in any top up funding calculations.

Separate calculations will be made each term, based on data obtained from the relevant census.

Exceptions:

There are two exceptions to the general rule set out above:

1. In order to avoid double funding, a school will not be eligible for Key Stage 1 class size funding in the autumn and spring terms where the school has qualified of an in-year growth allowance for these pupils.
2. When a school is funded on the basis of estimated actual costs, which is ordinarily a new school or one that opens additional forms of entry during a financial year, it will not be entitled to any top up funding from the Key Stage 1 class size contingency, provided funds for the additional costs that will arise are allocated from an alternative source.

**Approved by the Schools Forum on 20 June 2019.**

**No changes are being proposed by the council.**

**2019-20 Funding allocations to support schools needing to meet the  
Key Stage 1 Class Size Funding regulations**

School	Total KS1 pupils funded October 2018 Census	K.S 1 Allocation summer term 2019	K.S 1 Allocation autumn term 2019	K.S 1 Allocation spring term 2020	Total
Ascot Heath Infant	162	£0	£0	£0	£0
Binfield CE Primary	174	£0	£0	£0	£0
Birch Hill Primary	171	£0	£0	£0	£0

## **Criteria for the allocation of additional funds to support schools facing financial difficulties**

### Outline of the scheme

School Funding Regulations allow for additional funds outside the normal operation of the Funding Formula to be provided to schools considered to be in financial difficulty. In agreement with the Schools Forum, de-delegated funding has been set aside in the School's Budget for this purpose. The criteria to be used to allocate this funding has also previously been agreed, and a school would qualify for additional financial support if, in the opinion of the Council's Director responsible for schools and the Council's Director responsible for finance, they:

1. were unable to set a balanced budget and were in need of a licensed deficit arrangement at the start of the relevant financial year, and/or
2. were in or likely to fall into one of the Ofsted categories of causing concern, including serious weaknesses or special measures.
3. Were a 1 form of entry school judged good or better that have more than 5% empty places

Where additional funding is agreed, it is on condition that the senior managers and relevant governors of each school attend regular monitoring meetings with officers of the Council, provide such financial and other information that is requested, and do not make any significant deviations in spending, either in magnitude or by type without the approval of the Director responsible for schools.

Before any proposed allocation of such funds is passed on to relevant schools, they are reported to and agreed by the Schools Forum. However, this can cause uncertainty and result in a delay in releasing resources to meet an immediate need.

### Powers delegated to the Director responsible for schools

In order to allow funds to be allocated within an appropriate time scale it is recommended that a set of principles be agreed by the School Forum which allows the Council's Director responsible for schools discretion to allocate funds up to but not exceeding a set level dependent on the Ofsted category of the school. Any such allocations would subsequently be reported to the Schools Forum.

The level of allocation of funds would be:

1. schools judged to have serious weaknesses (up to £20k per year)
2. schools deemed to be in need of special measures (up to £50k per year)
3. schools at risk of either judged to have serious weaknesses or entering special measures (up to £30k per year)
4. 1 form of entry schools judged good or better that have more than 5% empty places (up to £20k per year per school and £40k in total)

With a maximum value of aggregate allocations of £150k in any one financial year without the express approval of the Schools Forum.

Allocations will only be agreed where the relevant school has demonstrated insufficient funds exist within the budget to fund the required actions or activities.

Where schools enter an Ofsted category of concern (judged to have serious weaknesses or placed into Special Measures) the LA establishes a Standards Monitoring Board (SMB). The Board has an independent chair and senior officers of the LA as members. The headteacher and Chair of Governors of the school are invited to attend the SMB to report on progress. A support plan outlines the actions to be taken by the school and the LA in order to effect rapid improvement. Where the school is unable to fund these actions from its own delegated budget the SMB can request that additional resources be sought. Any such requests are approved by the Director responsible for schools. Funds would be allocated to the school from those held for schools in financial difficulty.

**Approved by the Schools Forum on 20 June 2019.**

**No changes are being proposed by the council.**

## 2019-20 funding allocations to schools in financial difficulties

### Allocations agreed under the Director's delegated powers

Taking account of proposals from the Standards Monitoring Board (SMB) meetings at relevant schools and 1 FE primary schools with over 5% empty places, funding allocations totalling £0.138m were agreed during the year as follows:

1. £14,560 to New Scotland Hill to support learning and teaching coaching, including specialist mathematics, English and SENCO and related resources.
2. £5,910 to the Pines Primary to fund supply cover to enable additional support to teaching and leadership of writing, the professional development of the Deputy Headteacher, teaching and monitoring of phonics and the leadership of mathematics.
3. £6,750 to Sandy Lane for headteacher training to complete a Professional Certificate in Coaching that can then be used to undertake coaching more regularly within the school impacting on more staff.
4. £13,000 to Wildridings Primary to support learning, in particular literacy through teacher attendance at the Whiteknights English Hub that requires supply teacher cover and the purchase of appropriate resources.
5. £43,566 to Harmanswater. To temporarily support the school through a staffing restructure and in particular the reduction of senior leadership capacity that would now be managed to a later timescale than originally envisaged.
6. £11,525 to Easthampstead Park. Request for financial support to invest in a Year 11 programme with the aim of improving the student's outturns within subjects where the number of student entries is considerable. The support package would target a significant number of the 151 student's in Year 11 dependant on their curricular choices and is a key focus in the school improvement plan. It will provide students with additional opportunities for passing examinations at a Level 4 or above.
7. £2,874 to St Michael's Sandhurst to improve the overall quality of teaching and to ensure that all pupils have access to the most appropriate resources to support their learning, a number of laptops will be replaced.
8. £2,769 to Winkfield St Marys for as a 1 FE with low pupil numbers. There were 199 on roll at October 2019 which results in 5% of empty places.
9. £16,616 to New Scotland Hill Primary School as a 1 FE with low pupil numbers. There were 194 on roll at October 2019 which results in 8% of empty places.
10. £20,000 to St Michael's Sandhurst Primary as a 1 FE with low pupil numbers. There were 189 on roll at October 2019 which results in 10% of empty places. Funding would have been £30,463 without the policy funding cap.

Declaration of Concern (DoC) is called where a school is at risk of being judged as Requiring Improvement or inadequate at its next inspection. Following this a SMB is established to track progress every 6 weeks. The SMB reviews evidence provided by school leaders and LA staff after 12 weeks and a decision made as to whether leadership are taking effective action following the DoC. The processes are clearly shared within the Learning and Improvement Strategy / Annex A School Improvement.

## **LA expenditure**

In addition to these school allocations, the Forum has also agreed that up to £60,000 of School Adviser and other professional staff support time, such as HR and Finance can be funded from this budget to support the SMBs and other additional arrangements provided directly by the council.

## **Eligible expenditure against the schools contingency**

### **Background**

**The School and Early Years Finance (England) Regulations** define “expenditure on the schools specific contingency” as:

“Central expenditure deducted for the purpose of ensuring that monies are available to enable an increase in a school’s budget share after it has been allocated, and where it subsequently becomes apparent that a governing body has incurred expenditure which it would be unreasonable to expect them to meet from the school’s budget share, which may include expenditure in relation to:

- schools in financial difficulty;
- the writing-off of deficits of schools which are discontinued, excluding any associated costs and overheads;
- new, amalgamating or closing schools;
- circumstances which were unforeseen when the school’s budget share was initially determined.”

In order to provide greater clarity, and to be able to fund all of the circumstances permitted by the DfE, which takes account of comments received from schools to the consultation on the school loan scheme, the following text is proposed to be approved.

### **Eligible expenditure from the BF schools’ contingency fund (de-delegated)**

- Unexpected and unavoidable costs in schools, which it would be unreasonable to expect governing bodies to meet from their delegated budget, and where the amount required and the circumstances giving rise to the additional costs were unknown at the time of setting the budget. These would ordinarily need to exceed £5,000.
- Correction of formula errors
- Where a school is closing and a deficit is likely, every effort should be taken to achieve break-even. Where a school is becoming an academy, they should also ensure costs are only incurred that relate to the school, and for the period it is a maintained school. However where a school closes with a deficit, where the EFA does not reimburse for this, the cost must be picked up by the Dedicated School Grant (DSG).
- Funding for schools in financial difficulties where this is not the result of poor local management decisions. [Note a separate policy is in place for this category].

**As agreed at 21 June 2018 Schools Forum**

**No changes are being proposed by the council.**
