23 JUNE 2004**

**REVISED CONTRACT REGULATIONS
(Constitution Review Group)**

1 INTRODUCTION

- 1.1 At its meeting on 26th March 2003 the Council received a report on the review of Contract Regulations. The report noted that it was a recommendation arising from the Best Value Review of Finance that standing orders should be reviewed to ensure that they promote efficient and effective procurement whilst maintaining safeguards of probity and governance. Council was further advised that the view of the Strategic Procurement Group was that Contract Regulations are in need of major revision to bring them up to date to reflect current procurement practice and to simplify the structure to make them easier to understand. It was stated that the ultimate aim would be to completely revise the Regulations, including the more detailed procedural guidance in a Procurement Manual, which will act as a sister publication to the Contract Regulations in the same way as Financial Regulations are supported by the Financial Management Handbook.
- 1.2 The purpose of this report is to seek the approval of Council to the revised Contract Regulations which has been produced by the Strategic Procurement Group which includes a representative from each department.

2 RECOMMENDATIONS

- 2.1 **The proposed new Contract Regulations, based on a merging of the best elements of the Council's existing Regulations and the model form published last autumn by the LGA and CIPFA, be adopted.**
- 2.2 **The Procurement Manual, should, when completed, be implemented as an essential supplement to the new Contract Regulations; its provisions should be regarded as mandatory (where so stated) in the same way as the Financial Management Handbook supports the Financial Regulations.**
- 2.3 **The new Contract Regulations and the Procurement Manual should be launched together, as soon as possible.**
- 2.4 **Whilst revisions to the Contract Regulations will be subject to approval by the Constitution Review Group and Full Council, as now, the Procurement Manual will remain under the control of the Head of Procurement, in consultation with the Strategic Procurement Group, subject to any revisions to mandatory requirements being endorsed in principle by Corporate Management Team.**

3. ADVICE RECEIVED FROM STATUTORY AND OTHER OFFICERS

3.1 Borough Solicitor

The Borough Solicitor is represented on the Strategic Procurement Group and his comments have been taken into account in the proposed new regulations

3.2 Borough Finance Officer

The revised Contract Regulations reflect current best practice whilst retaining internal controls as a part of the Council's decision-making process.

3.3 Access Implications

None

4. SUPPORTING INFORMATION

4.1 Amongst the recommendations of the Byatt Report on local government procurement, "Delivering Better Services for Citizens" published in July 2001, was that "local authorities should review their standing orders to ensure they promote efficient and effective procurement whilst maintaining safeguards of probity and good governance." Adding that "standing orders should be used positively to encourage good practice".

4.2 The revised regulations will form the bedrock to the establishment and embedding of best procurement practice into the Council's processes. They are written in plain English and use easy to understand tables wherever possible. The Regulations are much shorter, covering basic principles only; detailed guidance on the contractual procedures and processes such as how to carry out a tender opening will be set out in the Procurement Manual.

4.3 Future revisions to Contract Regulations will remain subject to the approval of the Constitution Review Group and the Full Council. It would however be inappropriate for the detailed provisions of and future revisions to the Procurement Manual to be subject to such a requirement. If the document is to be a bastion of best practice advice and exemplary standard procurement documentation and tools, it must be capable of continuous improvement and updating. It is therefore proposed that the Head of Procurement be responsible for future revisions and additions, in consultation with the Strategic Procurement Group. This would be in line with the process for amending the Financial Management Handbook.

4.4 When redrafting these Regulations, the Strategic Procurement Group considered three options as a basis for new regulations:

- Completely rewriting the regulations from scratch
- Basing new regulations on a model produced by CIPFA/LGA
- Utilising a model form produced by the IDeA.

4.5 The Group felt it would be better to use one of the new model forms as a base but to ensure that sufficient editing was applied to ensure the result met any specific BFBC

requirements. Having carefully considered the two forms the Group considered the CIPFA/LGA draft was the better of the two.

4.6 The major differences from existing Contract Regulations may be summarised as follows:

4.6.1 The Procurement Manual is established as an essential supplement to the Regulations – certain key sections would be mandatory. These include several provisions formerly in Contract Regulations covering more detailed procedures and rules for:

- Selecting tenderers
- Inviting tenders
- Receiving and opening tenders
- Post tender negotiation
- EC procurement
- Contract award criteria
- Record keeping
- Content and form of contracts

4.6.2 Directors must formally delegate responsibility for undertaking procurement to individual officers in writing (unless separate provision is made, this could simply be via the Register of Certifying Officers).

4.6.3 All Officers must consult the Head of Procurement at the outset on all contracts approaching the EC threshold; if above the threshold, the tender list must be jointly approved with the Head of Procurement.

4.6.4 Exemptions to the Contract Regulations may be authorised by the S151 Officer or Monitoring Officer – previously approval of the Executive (or Executive Member in urgent cases) was needed. Delegating the power to an independent statutory officer should provide adequate safeguards whilst considerably streamlining processes.

4.6.5 Contract variations – delegation now up to £25k or +10% of contract value whichever is higher (rather than a straight £25k) and approval just required from Executive Member rather than full Executive.

4.6.6 The provision applying prior to March 2003, allowing Directors authority to apply single tender action to individual consultancy contracts greater than £50k per annum has been reinstated.

4.6.7 Written (rather than simple oral) quotations are required above £1,000. (The Procurement Manual will make clear that catalogue prices can be regarded as written quotes for this purpose). This cut off level was considered by the Strategic Procurement Group to be an appropriate level.

4.6.8 Most powers reserved to the Executive are also granted to School Governing Bodies.

4.6.9 The basic principles of procurement are stated - previously reference was made only to Best Value

4.6.10 A definition of grants has been included so as to clarify the boundaries of procurement for the purposes of the Regulations; previously no definition existed.

- 4.6.11 Disposal of Assets (Section 7 of previous Regulations) has been deleted and will be covered in revisions to the Financial Regulations. The existing requirements will apply until revised Financial Regulations have been agreed.
- 4.7 A copy of the revised Regulations is attached at Appendix A and an outline contents of the Procurement Manual at Appendix B.
- 4.8 On completion of the initial sections of the Procurement Manual, the new Contract Regulations and Procurement Manual would be issued to staff and launched via presentations to DMTs and more detailed seminars to relevant staff. It is expected this will take place over the summer. A section of the Procurement Manual will make clear how the new Contract Regulations and requirements of the Manual apply to schools.

4 Basic Principles

Purchasing procedures must:-

- achieve Best Value for public money spent
- be consistent with the highest Standards of Integrity
- ensure fairness in allocating Public Contracts
- comply with all legal requirements (including EC Directives)
- ensure that Non-Commercial Considerations do not influence any Contracting Decision
- support the Council's Corporate and Departmental aims and policies
- comply with the Council's guidance contained in its Procurement Manual

5 Responsibilities of Responsible Director (or school Governing Body)

5.1 The Responsible Director must comply with:-

- the Council's Constitution and Financial Regulations
- all UK European Union binding legal requirements
- those parts of the Council's Procurement Manual which are stated as compulsory in accordance with these Contract Regulations

5.2 The Responsible Director must:-

- keep the records required by the Procurement Manual
- ensure that all procurement procedures are conducted in accordance with these Contract Regulations and in particular that any Tender procedures are conducted in accordance with the procedures set out in the relevant Invitation to Tender
- ensure that agents, consultants and contractual partners acting on their behalf also comply with these Contract Regulations
- take all necessary legal financial and professional advice
- ensure that Contract Regulations are complied with. They are a minimum requirement

6 Exemptions to Contract Regulations

6.1 No exemption to these Regulations can be used if the EC Procedure applies otherwise exemptions to these Contract Regulations may be authorised by the Section 151 Officer or the Monitoring Officer.

6.2 The Responsible Director shall ensure that a copy of the appropriate report and decision relating to any exemption made to these Contract Regulations is held on the appropriate contracts file.

7 Guidance in the Procurement Manual

7.1 The Procurement Manual contains guidance that the Responsible Director should take into consideration. In addition to this guidance the following sections in the Procurement Manual are obligatory and must be followed:-

- requirements for invitation to tender
- selection of tenderers
- receipt and opening of tenders
- post tender negotiation

- award process and Key Decisions
- record keeping requirements
- E-auctions
- EC Procurement Directives

8 Procurement Procedures

8.1 The procedures to be applied in respect of any purchase or contract depend on its Total Value. If the Total Value does not exceed £50,000 the required procedure is a Quotation; if it exceeds £50,000 it is a Tender.

8.2 The Responsible Director must ensure that the appropriate procedure is followed.

9. Selection of Suppliers

9.1 The Responsible Director shall ensure all tenderers for a relevant contract have been suitably assessed for financial standing and technical ability. Guidance is given in the Procurement Manual.

9.2 The Responsible Director can expect that the requirements of Section 9.1 are duly complied with if Contractors are selected from:-

- Constructionline, or
- Standing lists of providers, maintained by the Council or on its behalf and compiled in accordance with the requirements in the Procurement Manual, or
- Contractors to externally-established Framework Agreements approved by the Council in accordance with Section 14.

10. Conducting a Procurement

10.1 The Responsible Director must calculate the Total Value of the purchase or contract. If the Total Value is more than or approaches the EC Threshold then the Responsible Director must take the advice of the Head of Procurement as to the appropriate procurement procedure.

10.2 The following procedures apply where there are no other procedures that take precedence e.g. EC Procedure. If in doubt Responsible Directors must take the formal advice of the Head of Procurement.

10.3 Competition Requirements

10.3.1 Where the Total Value is within the values in the first column below the following requirements must be followed:

Total Value	Competition Requirements	Approval of Supplier list
Up to £1,000	1 written/oral Quotation	Responsible Director
>£1,000 - £5,000	1 written Quotation	Responsible Director

> £5,000 - £50,000	3 written Quotations must be sought (based on a written specification)	Responsible Director
>£50,000 to the EC Threshold (if applicable)	Invitation to Tender by select list (compiled in accordance with Contract Regulation 9) to at least 3 and usually no more than 5 Suppliers	Responsible Director
Above EC Threshold (see Procurement Manual Section 3 for up to date thresholds)	EC Procedure or where this does not apply Invitation to Tender by select list (compiled in accordance with Contract Regulation 9) to at least 3 and usually no more than 6 Suppliers	Responsible Director and the Head of Procurement

- Where it can be demonstrated that there are insufficient suitably qualified Suppliers to meet the competition requirements all suitably qualified Suppliers must be invited.
- Where only one suitably qualified Supplier exists then the single tender action procedure in 10.4 shall be followed.
- These competition requirements do not apply where externally-established Framework Agreements are utilised in accordance with section 14. In this instance the Responsible Director will take the advice of the Head of Procurement upon the use of the proposed Framework Agreement and the appropriate procedure.

10.3.2 A Responsible Director must not enter into separate Contracts nor select a method of calculating the Total Value in order to avoid or minimise the application of these Contract Regulations.

10.3.3 Where the EC Procedure is required the Responsible Director shall consult the guidance on the EC procurement rules contained in the Procurement Manual and formally consult the Head of Procurement to determine the method of conducting the procurement.

10.4 Single tender action

10.4.1 A Responsible Director may invite a single tender or quotation without further competition if he/she:-

- uses reasonable endeavours to achieve value for money; and
- meets the justification criteria set out in Annex A; and
- has written approval in accordance with the following:-

Total Value	Approval Procedure
Up to £1,000	No special approval necessary
>£1,000 - £5,000	Responsible Director must record reasons on file

>£5,000 – £250,000	Submissions with full justification must be made using form STA 1 for approval by the Section 151 Officer or the Monitoring Officer
Above £250,000	<p>Submissions with full justification must be made in writing for approval:-</p> <p>(a) for Executive functions by the Leader of the Council or a person or persons nominated by the Leader in accordance with his/her powers of delegation detailed in part 3 of the Constitution; or</p> <p>(b) for non-Executive functions, by the Council or (if the function has been delegated to a Committee) the relevant Committee.</p> <p>In cases of urgency, single tender action may be authorised by the Director of Corporate Services or his/her authorised representative provided a subsequent report of the decision shall be submitted to the Council, the responsible Committee or the Executive (as appropriate) [for Schools urgent single tender action may be authorised by the Governing Body and reported to the Director of Education].</p>

NB A Responsible Director may automatically apply single tender action, without prior approval or subsequent reporting to the Executive, in respect of care packages for individually named clients or in respect of the provision of education to pupils with special educational needs where the cost per annum is under £50,000 or where the annual cost exceeds £50,000 per annum, three written quotations should be requested. In the event that there are less than three viable suppliers the Responsible Director shall obtain the maximum number of quotations reasonably practicable to obtain.

10.4.2 Single tender action may not be used in the event of a purchase or contract which is governed by the EC Procedure and is above the EC Threshold.

10.4.3 The use of approved Framework Agreements is not treated as single tender action pursuant to these regulations but is governed by the provisions of the Procurement Manual. However any order of £400,000 or greater will be subject to the Key Decision process, guidance on which is given in the Procurement Manual.

10.4.4 Where only one Consultant is considered most suitable by the Responsible Director single tender action may be applied to contracts for consultancy services up to the Total Value of £50,000 without following the procedures outlined. Contracts of over £50,000 in Total Value shall be subject to the full procedures outlined

11. Award Criteria

11.1 Contracts must only be awarded on the basis of value for money for the Council. The basic criteria must be the most economically advantageous offer which will include whole life cost and appropriate quality considerations. Additional requirements regarding this are contained in the Procurement Manual.

11.2 Award criteria must not include:-

- Non-Commercial Considerations
- matters which fail to ensure fair treatment of all Suppliers;
- matters which are anti-competitive within the meaning of the Local Government Act 1988.

11.3 In the event that an offer is withdrawn by a Supplier the Responsible Director may accept the next best tender offering value for money and which meets the tender acceptance criteria. In doing so he must also consider the sufficiency of the tenders remaining and the benefits, if any, of retendering.

12. Evidence and signing of Contract

12.1 The formal advice of the Borough Solicitor must be sought for all of the following Contracts:-

- where the Total Value exceeds £150,000

12.4 Copies of the Council's standard Conditions of Contract and other approved forms are appended at Annex B.

12.5 All other purchases and contracts save where the Total Value is no more than £500 shall be concluded on the Council's terms and conditions in accordance with the requirements of the Procurement Manual.
