

Overview and Scrutiny Commission 17 February 2021

1

Work programme resourcing principles

- Commission asked that each panel undertakes one review at a time due to pressure on members' availability
- Each review requires significant preparation and activity before panel activity / review meetings commence for example collating evidence packs and setting up witness attendance
- Delays to conclusion of reviews will impact on commencement of a panel's own review and potentially another panel's review
- The Commission will need to carefully consider these impacts when agreeing changes to the work programme

2

Current interdependencies

Education, Skills and Growth: CIL review is being redesigned to adjust timing of officer input from the Planning department.

Environment and Communities: Agreed delay to the current RSL review will result in delayed start to the Food Waste review and Blue Badge review. This is now anticipated to start in April.

Wellbeing and Finance: Any delay to existing reviews will impact on the commencement of the Blue Badge review. It is anticipated that this will start in April as the current review concludes.

3
