

Appendix 4

High priority rights of way issues, identified as part of the Definitive Map and Statement consolidation, January 2023

Right of way parish and status	Path name	High priority issues	Possible resolutions
Binfield FP2		Unofficial fencing, diverting path around field to east (Bottle Lane).	Contact landowner re. applying for diversion order.
Binfield FP11		Part incorporated in tarmac road, adoptable highway from 11 Attlee Way to opposite flats 9 to 33 Ellwood Fields	Line is still correct. Landowners refused to divert FP onto a woodland buffer path. Not easily resolvable.
Binfield FP14		Section which goes along the borough boundary is inaccessible.	Will be sorted out by the Amen Corner South development.
Binfield BR23A		Needs extinguishing as short dead-end bridleway cut-off by M4.	Consulting Binfield PC on this matter. Conditions in relation to establishing a new public footpath (Mosses path).
Bracknell FP7	Frog Lane	Crosses Downshire Way with no formal pedestrian access provided.	Complicated. Check to see if there's a historic connection to Old Bracknell Road.
Sandhurst FP5		Cuts through middle of properties	FP needs diverting on the map to follow adopted highways.
Sandhurst BW16	Brookside	Bollards on byway prevent through traffic on this private road. Statement to be updated with this limitation, and updated ref to St Mary's Church, which is no longer there.	Bollards have been there for at least 10 years. Check why/when they were installed. Need to add bollards as a limitation in the Statement. Check if MOD order is required.
Warfield BW4	Berry Lane	Permanent TROs made in the last 10 years.	Add TRO update in Statement, under Remarks. Check if MOD order is required.
Warfield BW10,	Hogoak Lane		
Winkfield BW16	Part of Hogoak Lane		
Winkfield FP 13 and Winkfield FP19		Public path diversion (MOD) order underway.	MOD order TBC once final conditions are met by the landowner.
