Description of Commitment Budget Items for 2023/24 to 2025/26

Directorate and Item	Description
Central	
Residents Survey	The Council commissions a survey of residents in the Borough to help guide future policies. The surveys are every three years with the next survey due in 2024/25.
Local Development Framework	<p>The Framework comprises a set of Local Plans containing policies to guide the future development of the Borough including where new development should go and policies to protect valuable and sensitive areas. The Council is required to produce evidence to support their policies and to be able to demonstrate that they are sound to an independent Inspector. This requires a large amount of specialist consultancy advice to provide information on the levels of need for housing, employment, leisure, retail, and other forms of development. The identification of areas for development requires assessments of many factors such as archaeological potential, landscape quality, ecology, accessibility, and flood risk.</p> <p>The regulations covering the preparation of Local Plans also require the Council to carry out extensive consultation at various stages in the process and the Council is required to cover the cost of holding public examinations into Local Plans.</p>
Revenues	Reversal of the payments of £100 to households in receipt of Council Tax support (households paying council tax on lowest incomes) which was for 2022/23 only. This was funded from the Covid-19 Earmarked Reserve.
The Look Out	Additional income generated from Phase Two of the transformation of The Look Out.
Queen's Platinum Jubilee	Reversal of the budget built into 2022/23 for one year only to fund a programme of events to celebrate the Queen's Platinum Jubilee, with a corresponding transfer from Earmarked Reserves.
External Auditor Fees	Public Sector Audit Appointments Ltd (PSAA) is currently procuring audit services for local authorities spanning the audits from 2023/24 to 2027/28. Although firm figures have yet to be provided, external audit fees are expected to increase significantly due to the turbulent market and a local audit system that is facing unprecedented difficulties in delivering audit opinions on time.
Delivery	
Waste Disposal PFI	Projection of contract costs for Recycling and Waste Disposal. The contract is shared with Wokingham and Reading Borough Councils.
Neighbourhood Plan Referendums - Warfield and Winkfield	The referenda took place in 2022/23 and therefore the associated budget can be removed in 2023/24.

Directorate and Item	Description
Green Waste Collection Arrangements	A food waste collection service and a change to the refuse collection frequency to once every three weeks was introduced from March 2021. This will reduce the Council's impact on Climate Change and generate savings over the life of the contract.
Borough Elections	Borough Elections will be held in May 2023.
London Road Landfill Works	Revenue impact of the 2022/23 capital programme. Costs associated with the audit and inspection of gas and leachate systems.
ICT - Rationalisation	Now new technology solutions are in place, there is an opportunity to decommission legacy applications and replace them with low-code developments, and to reduce the size of the ICT infrastructure estate required to support those applications. Achieving this level of saving will require corporate buy-in to the rationalisation programme, and sufficient resource in the digital development area.
ICT – Business Change Programme.	The future support model for the Cloud infrastructure will either enable a reduction in staffing if management of the Azure environment is delivered by a Cloud Service Provider, or a reduction in the cost of the Cloud Service Provider if management of the environment is brought in-house.
Leisure Contract Management Fee	In the 2022/23 budget there was a one-off reduction in the Management Fee (£0.150m). This will be repaid in equal instalments over the next 5 years (£0.030m). Additional Covid-19 support of £0.094m will also be repaid over the next 10 years (£0.009m). The original budget has also been re-instated in 2023/24.
Invest to Save - Carbon Reduction Initiatives	Implementation of several projects to help reduce the Council's energy costs and its carbon footprint. All schemes deliver savings at least equal to the cost of interest and the Minimum Revenue Provision resulting from the capital expenditure.
People	
Suitability surveys	Suitability and access surveys are undertaken every three years to update the Asset Management Plan so that up to date information is available to inform investment decisions on the capital programme.
Schools Budget – Funding for New Schools	There is a significant medium-term financial pressure on the Schools Budget arising from the cost of new schools that are being built in response to new housing and the resultant need for more school places. New schools generally need to open at the start of the developments and will take several years to fill up as house building continues. During this period, they need additional financial support to cover what can be significant diseconomies of scale. This cost pressure is not adequately resourced in the funding settlement from the government and to protect school

Directorate and Item	Description
	budgets the Council agreed to provide up to £1m of funding over four years. All funding has now been allocated and therefore the £0.182m provided in 2022/23 has been reversed in the Commitment Budget.
Schools Budget - High Needs deficit	Bracknell Forest along with many other councils has had to set a deficit budget for the High Needs Block. This deficit will be balanced in the Council's budget by a contribution from school reserves as it will need to be met from the DSG over the medium term. The Government is currently reviewing the arrangements for managing these deficits, with the current approach due to end in April 2023. The Council's budget proposals, informed by discussions with Government officials and the Local Government Association, assume that the current arrangements will be extended for a further period of three years.
Heathlands	New care home which opened in 2022. The Council has a contract for 36 of the beds at a competitive price. This is the full year effect of the savings
Forestcare	Removal of the pressure required while the trading account is moved to a sustainable position.
Foster Care Allowances - Mainstream	To ensure we can continue to recruit and retain high-quality local foster carers, increase resilience and improve permanence, allowance payments have been increased to a more competitive offer. This is expected to lead to some cost savings and cost avoidance by reducing reliance on more expensive alternative care options.
Foster Care Allowances - Enhanced Enhanced Foster Care Pilot	This scheme would initially focus on a six-month pilot with the expectation that it will be expanded if successful, using an "invest to save" approach. The proposal is to supplement the "core" allowances with additional weekly skills and complexity payments, where very experienced and skilled foster carers can support children who would otherwise require independent placements. The pilot includes two children "stepping down" from residential placements.
Social Worker Recruitment and Retention Package	Long-standing difficulties in recruiting and retaining these specialist staff has resulted in a review of current market factors and comparative salaries (locally and nationally). From the evidence gathered through the review, there is a justification to increase the base salary level for social workers generally which is expected to lead to a reduction in use of more expensive agency staff.
Children's Support Services – Pathway for Adulthood SEND Officer	A permanent Pathway for Adulthood Officer will address specific feedback from Ofsted that there is a lack of future aspiration and appropriate placements for children as they approach adulthood which has led to relatively high numbers of young people with SEND who are classed as Not in Education, Employment and Training (NEET).

Directorate and Item	Description
Invest to Save - Carbon Reduction Initiatives	Implementation of several projects to help reduce the Council's energy costs and its carbon footprint. All schemes deliver savings at least equal to the cost of interest and the Minimum Revenue Provision resulting from the capital expenditure.
Non-Departmental / Council Wide	
Minimum and Voluntary Revenue Provision	The change in the principal repayment on borrowing used to finance capital expenditure.
Increase in employers Pension Fund contributions	Increase in payments required to meet prior year deficits at the level required by the Berkshire Pension Fund.
Interest on External Borrowing	Interest on borrowing required to finance the Council's Capital Programme. Reflects the impact of prior year underspends, the cash flow position and current interest rates.
2021/22 use of balances (full year effect) -Interest	The full year effect of the additional interest arising from the use of balances in 2021/22.
Earmarked Reserve – Funding for New Schools	There is a significant medium-term financial pressure on the Schools Budget arising from the cost of new schools that are being built in response to new housing and the resultant need for more school places. New schools generally need to open at the start of the developments and will take several years to fill up as house building continues. During this period, they need additional financial support to cover what can be significant diseconomies of scale. Description	2024/25 £'000	2025/26 £'000	2026/27 £'000
<p>Revenue – Council Tax</p> <p>Reduction in income budget to better reflect recent income received. Council Tax costs recovered through court judgements have been consistently below budgeted income since 2020, when courts were not sitting.</p>	25	0	0
<p>HR - Occupational Health</p> <p>The budget for Occupational Health services is held centrally and managed on behalf of the organisation by the Human Resources and Organisational Development team.</p> <p>The annual cost for the Counselling Service provided by VIVUP exceeds the £0.008m budget by £0.023m. There is also an annual cost of £0.002m for eye tests, for which there is no specific budget.</p> <p>The Occupational Health contract is due for renewal in July 2024. Early market indications are that costs will increase by around 10% resulting in a pressure of approximately £0.010m.</p>	33	2	0
<p>Internal Audit</p> <p>Creation of In-House audit team, see saving proposal that offsets additional costs.</p> <p>Two apprentices have been appointed, taking the level of staff employed temporarily above the agreed establishment, while they undertake professional training.</p>	61	0	0
<p>Internal Audit</p> <p>Making available budget provision to procure some external resources to help deliver the Internal Audit programme while the apprentices undertake training and develop skills to be able to undertake audit work.</p>	25	0	-25
<p>Technical Accountancy</p> <p>The small in-house team that manages the Council's core financial system Agresso requires external specialist support to maintain and develop the financial system. The need for this may reduce when the system is hosted by Agresso directly, which is set to become their only available model from the end of 2024. Cloud hosting costs</p>	50	0	0

Description Impact	2024/25 £'000	2025/26 £'000	2026/27 £'000
Office Accommodation Due to underspends in previous years, budgets will be reduced for the shredding contract (£0.005m), print room reprographics (£0.050m) and Courier vehicle charges (£0.008m)	63	0	0
Office Accommodation The purchase of a piece of equipment will enable a saving to be achieved by bringing in-house an element of the bulk printing contract.	5	0	0
Office Accommodation If the centralised stationery budget is removed in its entirety, thus discouraging unnecessary purchases, a saving of £0.022m can be achieved. In addition, if all meeting refreshments are stopped, a saving of £0.014m can be achieved.	36	0	0
Office Accommodation Restructure within the facilities team to reduce the team by 1.0 Full Time Equivalent. Options are currently being reviewed as the facilities team now support Binfield and Bucklers Park community hubs. An alternative option considered involves using vacant hours from members of staff having recently reduced their hours to offset this saving.	27	0	0
Leisure Additional management fee to be received from Everyone Active in relation to the Bracknell Leisure Centre refurbishment project and Coral Reef gift shop project.	125	0	0
Waste Collection A new truck is to be purchased to enable the garden waste collection service to be provided to all those who have expressed an interest and to maintain the service for those customers already signed up. This saving will increase the income target accordingly.	75	0	0
Grounds Maintenance/Street Cleansing Reduce weed killing from 3 sprays per annum to 2 (£0.030m) and reduce residential verge cuts (£0.046m) from every 2-3 weeks to every 4-6 weeks.	76	4	0
Grounds Maintenance/Street Cleansing Reduce the number of litter bins across the Borough (circa 450-500 reduction out of 900) to match need.	0	30	0
Grounds Maintenance/Street Cleansing Change the specification for the town centre cleansing operation. This will reduce staff from 4 to 2 and means cover will only be provided 5 days a week (Mon-Fri).	46	4	0

BUILDING REGULATIONS

Where FULL PLANS are submitted, the charges for Building Regulations are normally submitted in two stages; Stage One: (The Plan Charge) - on submission of the application; Stage Two: (The Inspection Charge) - Following the first site inspection, for which you will be invoiced. You must pay the first charge when depositing the application; the second charge is payable on demand from the Council after the first relevant site inspection has been carried out.

Where a BUILDING NOTICE is submitted instead of Full plans, the full charge is payable at the time of submission.

The charges for Building Regulation work are established at a level to cover the cost of the service so the applicant only pays for the service they need. Under the new Building (Local Authority Charges) Regulations 2010, there are two methods that Bracknell Building Control may use to establish the charge for building work. 1) Establishment of a standard charge or; 2) An individually determined charge.

Standard Charges:

The majority of domestic extensions and alteration work will generally attract a charge which falls within our 'Standard Charges' tables. Charges will not be payable for certain aspects of work, carried out for the benefit of disabled persons. The standard charges have been set on the basis that building work does not consist of, or include high risk or innovative construction which may require additional checking for compliance. Also, that the duration of the project from commencement to completion does not exceed 12 months. It is also assumed that the building work will be undertaken by a person or company who is competent to carry out the relevant design and building work. If not the work may incur supplementary charges.

If the charge for your building regulations work is not listed as a standard charge it will be individually determined.

Individually Determined Charges:

This method of determining the charge relates mainly to commercial projects or larger domestic schemes and includes all other work that is not listed in or 'Standard Charges' tables A to C. This includes:

- Building work in relation to more than one building.
- Building work consisting of a domestic extension where the floor area exceeds 60m².
- Applications subject to a reversion charge (work reverting form and approved inspector to the local authority).
- Building work consisting of alterations to a domestic property where the estimated cost of work exceeds £100,000.
- Building work consisting of a non-exempt domestic garage or carport with a floor area in excess of 60m².
- Non-domestic building work consisting of alterations, extension or new build where the cost of work exceeds £100,000.
- Work consisting of the erection or conversion of 5 or more dwellings or where the floor area of a dwelling exceeds 500m². For all new housing schemes please contact our office in the first instance for an individually determined quote.

If your building work is defined as requiring an individual determined charge, please contact us at 01344 354100 or email building.control@bracknell-forest.gov.uk with a description of the work and we will contact you to discuss a charge.

Commutated sums in respect of additional highway maintenance costs					
The Council will require a payment for the commuted annual maintenance costs of new work carried out under agreements made under S278 and S38 of the 1980 Highways Act where the costs of maintenance are estimated to be higher than those of the Highway Authority's standard requirements for infrastructure and street furniture or where non standard items are provided within the extent of the highway. Arrangements for such payments are set out in the council's Streetscene Supplementary Planning Document - Commuted Sums. This document is reviewed periodically and any revision will reflect any sums agreed now or in the future through the fees and charges process. Set out below are rates for infrastructure and street furniture.					
Commutated sums - Payable before the issue of the Provisional Completion Certificate or before the issue of the Final Completion Certificate, depending on the S278/S38 agreement in place.

The above is not a comprehensive list of all the items for Commuted Sums and other items will be considered as part of the initial design discussions. Non-standard materials that relate to items on this list will also need to be discussed early on in the process.					
In respect of all S278/38 schemes the developer must pay an initial fee of at least £3,250 before we can undertake any assessment. On larger schemes, that require a greater level of assessment, the initial fee will be decided on a scheme by scheme basis but it will be greater than the minimum amount stated above. Once agreed and paid we will then undertake the assessment. Any final fees due will reflect the level of initial fees secured prior to scheme assessment.					
Structures - costs to be agreed for individual structures at an early stage. Any structure that is to be adopted or maintained by the Highway Authority will require Commuted Sums and this will need to be assessed and agreed at an early Stage. Structural design assessment and approval (AIP etc.) will require additional fees and will be on a case by case basis.					
Any non standard drainage and SuDs systems that are to be either adopted/maintained by the Highway Authority will need to be reviewed separately and discussed at an early stage and will require Commuted Sums.					
Additional rates would relate to S38 agreements where non-standard highway detail has been applied. These rates will follow those S278 agreed rates.

Protected Prices

The Protected Prices can only vary if BFC agrees at its absolute discretion.

Club Prices

The supplier can increase these prices annually in line with inflation, subject to council approval.

The supplier can submit proposals together with supporting documentation and rationale to the Authority to change the Club Prices at the Facilities in excess of inflation but the Council is under no obligation to accept such proposals. The Council will consider the proposed changes to the Club Prices and shall either agree or reject the proposals. The Council's decision will be final.

Core Prices

The supplier can increase these prices annually in line with inflation, subject to council approval.

The supplier can submit proposals together with supporting documentation and rationale to the Authority to change the Core Prices at the Facilities in excess of inflation based on their assessment of market pricing. The Council will consider the proposed changes to the core prices and shall either agree or reject the proposals although changes to prices cannot unreasonably be withheld. The Council's decision will be final.

Non-Core Prices

The supplier can charge customers for activities not covered by the Protected Prices, the Club Prices and the Core Prices. These prices are not authorised by the Council but will be charged at market rates. Typically, these would include classes, new innovations and the like.

TREASURY MANAGEMENT REPORT

- 1.1 The Local Government Act 2003 requires the Council to “have regard to” the Prudential Code and to set Prudential Indicators for the next three years to ensure that the Council’s capital investment plans are affordable, prudent and sustainable.
- 1.2 The Council is required to operate a balanced budget, which broadly means that cash raised during the year will meet cash expenditure. Part of the treasury management operation is to ensure that this cash flow is adequately planned, with cash being available when it is needed. Surplus monies are invested in low-risk counterparties or instruments commensurate with the Council’s low risk appetite, providing adequate liquidity initially before considering investment return.
- 1.3 The second main function of the treasury management service is the funding of the Council’s capital plans. These capital plans provide a guide to the borrowing need of the Council, essentially the longer-term cash flow planning, to ensure that the Council can meet its capital spending obligations. This management of longer-term cash may involve arranging long or short-term loans, or using longer-term cash flow surpluses. On occasion, when it is prudent and economic, any debt previously drawn may be restructured to meet Council risk or cost objectives.
- 1.4 The contribution the treasury management function makes to the authority is critical, as the balance of debt and investment operations ensure liquidity or the ability to meet spending commitments as they fall due, either on day-to-day revenue or for larger capital projects. The treasury operations will see a balance of the interest costs of debt and the investment income arising from cash deposits affecting the available budget. Since cash balances generally result from reserves and balances, it is paramount to ensure adequate security of the sums invested, as a loss of principal will in effect result in a loss to the General Fund Balance.
- 1.5 CIPFA defines treasury management as:
- “The management of the local authority’s borrowing, investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.”*

Capital Strategy

- 1.6 The CIPFA 2021 Prudential and Treasury Management Codes require all local authorities to prepare a Capital Strategy report which will provide the following: -
- a high-level long-term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services
 - an overview of how the associated risk is managed
 - the implications for future financial sustainability
- 1.7 The aim of the strategy is to ensure that all the Authority’s elected members fully understand the overall long-term policy objectives and resulting Capital Strategy requirements, governance procedures and risk appetite.
- 1.8 The Council published its Capital Strategy in 2019. It has been reviewed by officers and will be updated for 2024/25 to be reviewed by Governance and Audit Committee before being published. If any non-treasury investment sustains a loss

during the final accounts and audit process, the strategy and revenue implications will be reported through the same procedure as the capital strategy.

Treasury Management reporting

- 1.9 The Authority is currently required to receive and approve, as a minimum, three main treasury reports each year, which incorporate a variety of policies, estimates and actuals.
- a. **Prudential and treasury indicators and treasury strategy** (this report) - The first, and most important report is forward looking and covers: -
 - the capital plans, (including prudential indicators)
 - a minimum revenue provision (MRP) policy, (how residual capital expenditure is charged to revenue over time)
 - the Treasury Management Strategy, (how the investments and borrowings are to be organised), including treasury indicators; and
 - an Annual Investment Strategy, (the parameters on how investments are to be managed)
 - b. **A mid-year treasury management report** – This is primarily a progress report and will update members on the capital position, amending prudential indicators as necessary, and whether any policies require revision. In addition, this Authority will receive quarterly update reports.
 - c. **An annual treasury report** – This is a backward-looking review document and provides details of a selection of actual prudential and treasury indicators and actual treasury operations compared to the estimates within the strategy.
- 1.10 The above reports are required to be adequately scrutinised before being recommended to the Council. This role is undertaken by the Governance and Audit Committee.
- 1.11 CIPFA published the revised Codes on 20th December 2021 and stated that revisions need to be included in the reporting framework from the 2023/24 financial year. This Authority, therefore, has to have regard to these Codes of Practice when it prepares the Treasury Management Strategy Statement and Annual Investment Strategy, and also related reports during the financial year, which are taken to Full Council for approval.
- 1.12 The Treasury Management Strategy for 2024/25 covers two main areas which meet the requirements of the Local Government Act 2003, DLUHC Investment Guidance, DLUHC MRP Guidance, the CIPFA Prudential Code and the CIPFA Treasury Management Code:

Capital issues

- the capital expenditure plans and the associated prudential indicators;
- the minimum revenue provision (MRP) policy.

Treasury management issues

- the current treasury position;
- treasury indicators which limit the treasury risk and activities of the Council;
- prospects for interest rates;
- the borrowing strategy;

- policy on borrowing in advance of need;
- debt rescheduling;
- the investment strategy;
- creditworthiness policy; and
- the policy on use of external service providers.

1.13 The CIPFA Treasury Management Code requires the responsible officer to ensure that members with responsibility for treasury management receive adequate training in treasury management. This especially applies to members responsible for scrutiny.

1.14 Furthermore, pages 47 and 48 of the Code state that they expect “all organisations to have a formal and comprehensive knowledge and skills or training policy for the effective acquisition and retention of treasury management knowledge and skills for those responsible for management, delivery, governance and decision making.

The Capital Prudential Indicators 2024/25 – 2026/27

The Local Government Act 2003 requires the Council to adopt the CIPFA Prudential Code and produce prudential indicators. Each indicator either summarises the expected capital activity or introduces limits upon that activity and reflects the outcome of the Council's underlying capital appraisal systems. Within this overall prudential framework there is an impact on the Council's treasury management activity – as it will directly impact on borrowing or investment activity and as such the Treasury Management Strategy for 2024/25 to 2026/27 complements these indicators.

The Council's capital expenditure plans are the key driver of treasury management activity. The output of the capital expenditure plans is reflected in the prudential indicators, which are designed to assist members' overview and confirm capital expenditure plans.

The Capital Expenditure Plans

The Council's capital expenditure plans are summarised below, and this forms the first of the prudential indicators. A certain level of capital expenditure is grant supported by the Government; any decisions by the Council to spend above this level will be considered unsupported capital expenditure. This capital expenditure needs to have regard to:

- Service objectives (e.g. strategic planning);
- Stewardship of assets (e.g. asset management planning);
- Value for money (e.g. option appraisal);
- Prudence and sustainability (e.g. implications for external borrowing and whole life costing);
- Affordability (e.g. implications for the council tax);
- Practicality (e.g. the achievability of the forward plan).

The revenue consequences of capital expenditure, particularly the unsupported capital expenditure, will need to be paid for from the Council's own resources. This capital expenditure can be paid for immediately (by applying capital resources such as capital receipts, capital grants, or revenue resources), but if these resources are insufficient any residual capital expenditure will add to the Council's borrowing need.

The key risks to the plans are that the level of Government support has been estimated and is therefore maybe subject to change. Similarly some estimates for other sources of funding, such as capital receipts, may also be subject to change over this timescale. For instance anticipated asset sales may be postponed due to external factors such as the impact of the wider economy.

The Council is asked to approve the summary capital expenditure projections below.

Capital Expenditure	2024/25 Estimate £000	2025/26 Estimate £000	2026/27 Estimate £000
Capital Expenditure	12,882	9,867	6,850
Commercial Activities	0	0	0
Financed by:			
Capital receipts	5,200	2,200	2,000
Capital grants & Contributions	4,554	4,675	3,230
Net financing need	3,128	2,992	1,620

The Council's Borrowing Need (the Capital Financing Requirement)

The second prudential indicator is the Council's Capital Financing Requirement (CFR). The CFR is simply the total outstanding capital expenditure which has not yet been paid for from either revenue or capital resources. It is essentially a measure of the Council's underlying borrowing need. The capital expenditure above which has not immediately been paid for will increase the CFR. Due to the nature of some of the capital expenditure identified above (ie grant), an element will be immediately impaired or will not qualify as capital expenditure for CFR purposes. As such the net financing figure above may differ from that used in the CFR calculation. The CFR does not increase indefinitely, as the minimum revenue provision (MRP) is a statutory annual revenue charge which broadly reduces the indebtedness in line with each assets life, and so charges the economic consumption of capital assets as they are used.

The Council is asked to approve the CFR projections below:

	2023/24	2024/25	2025/26	2026/27
	Estimate £m	Estimate £m	Estimate £m	Estimate £m
Capital Financing Requirement				
CFR – services	145.469	155.529	163.491	164.097
CFR - Commercial activities/ non-financial investments	84.055	82.984	81.887	80.765
Total CFR	229.524	238.513	245.378	244.862
Movement in CFR	9.452	8.989	6.865	-0.516
Movement in CFR represented by				
Net financing need for the year (above)	6.659	5.505	3.257	-4.325
Less MRP and other financing movements	2.793	3.484	3.608	3.808
Movement in CFR	9.452	8.989	6.865	-0.516

The net financing need for the year includes expenditure related to budgets approved in prior years in addition to the new capital expenditure approved in 2024/25.

Regulations have been issued which require full Council to approve an MRP Statement in advance of each year. The Council is recommended to approve the MRP Statement attached in Annex E(ii)

Minimum Revenue Provision (MRP) Policy Statement

Under Regulation 27 of the Local Authorities (Capital Finance and Accounting) (England) Regulations 2003, where the Authority has financed capital expenditure by borrowing it is required to make a provision each year through a revenue charge (MRP).

The Authority is required to calculate a prudent provision of MRP which ensures that the outstanding debt liability is repaid over a period that is reasonably commensurate with that over which the capital expenditure provides benefits. The MRP Guidance (2018) gives four ready-made options for calculating MRP, but the Authority can use any other reasonable basis that it can justify as prudent.

The MRP policy statement requires full council approval (or closest equivalent level) in advance of each financial year. As such the Council is recommended to approve the following MRP Statement

- For capital expenditure incurred before 1 April 2008 or which in the future will be Supported Capital Expenditure, the MRP policy will be:

Based on CFR – MRP will be based on the CFR. This option provides for an approximate 4% reduction in the borrowing need (CFR) each year.

- From 1 April 2008 for all unsupported borrowing (including PFI and finance leases but excluding CPIS expenditure) the MRP policy will be:

Asset life method - MRP will be based on the annuity basis, in accordance with the regulations. Repayments included in annual PFI, or finance leases are applied as MRP.

There will be a presumption that capital receipts will be allocated to the appropriate assets in relation to the constraints of the medium-term financial strategy.

Capital expenditure incurred during 2024/25 will not be subject to an MRP charge until 2025/26, or in the year after the asset becomes operational.

TREASURY MANAGEMENT STRATEGY STATEMENT

The Treasury Management service is an important part of the overall financial management of the Council's affairs. The prudential indicators in Annex E(i) consider the affordability and impact of capital expenditure decisions and set out the Council's overall capital framework. The Treasury Management service considers the effective funding of these decisions. Together they form part of the process which ensures the Council meets its balanced budget requirement under the Local Government Finance Act 1992.

The Council's treasury activities are strictly regulated by statutory requirements and a professional code of practice - 2011 revised CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes ("the CIPFA TM Code"). This Council has adopted the revised Code.

As a result of adopting the Code the Council also adopted a Treasury Policy Statement. This adoption is the requirement of one of the prudential indicators.

The Code of Practice requires an annual strategy to be reported to Council outlining the expected treasury activity for the forthcoming 3 years. A key requirement of this report is to explain both the risks, and the management of the risks, associated with the treasury service. A further treasury report is produced after the year-end to report on actual activity for the year, and a new requirement of the revision of the Code of Practice is that there is a mid-year monitoring report.

This strategy covers:

- The Council's debt and investment projections;
- The Council's estimates and limits on future debt levels;
- The expected movement in interest rates;
- The Council's borrowing and investment strategies;
- Treasury performance indicators;
- Specific limits on treasury activities;

Debt and Investment Projections 2024/25 – 2026/27

The borrowing requirement comprises the expected movement in the CFR and any maturing debt which will need to be re-financed.

	2024/25 Estimated	2025/26 Estimated	2026/27 Estimated
External Debt			
Debt at 31 March	£100m	£110m	£100m
Investments			
Investments at 31 March	£15m	£15m	£15m

Current Portfolio

The overall treasury management portfolio as at 31 March 2023 and for the position as at 31st October 2023 are shown below for both borrowing and investments

	Actual	Actual	Current	Current
	31/03/23	31/03/23	31/10/23	31/10/23
Treasury Investments	£000	%	£000	%
Money Market Funds	15,775	100	10,450	100
External Borrowing	£000	%	£000	%
Local Authorities	0	0	15,000	0
PWLB	80,000	100	80,000	100
Net Treasury Borrowing	64,225		84,550	

Limits to Borrowing Activity

Within the prudential indicators there are a number of key indicators to ensure the Council operates its activities within well defined limits. For the first of these the Council needs to ensure that its total borrowing net of any investments, does not, except in the short term, exceed the total of the CFR in the preceding year plus the estimates of any additional CFR for 2024/25 and the following two financial years. This allows some flexibility for limited early borrowing for future years but ensures that borrowing is not undertaken for revenue purposes.

The Executive Director:Resources reports that the Council has complied with this prudential indicator in the current year and does not envisage difficulties for the future. This view takes into account current commitments, existing plans, and the proposals in this budget report.

The Authorised Limit for External Debt

A further key prudential indicator represents a control on the overall level of borrowing. This represents a limit beyond which external debt is prohibited, and this limit needs to be set or revised by full Council. It reflects the level of external debt which, while not desired, could be afforded in the short term.

The Council is asked to approve the following Authorised Limit:

Authorised limit	2024/25 Estimate	2025/26 Estimate	2026/27 Estimate
Borrowing	£240m	£240m	£250m
Other long term liabilities	£20m	£20m	£20m
Total	£260m	£260m	£270m

Operational Boundary for External Debt

The Authority is also recommended to approve the Operational Boundary for external debt for the same period. The proposed Operational Boundary is based on the same estimates as the Authorised Limit but reflects directly the estimate of the most likely but not worst case scenario, without the additional headroom included within the Authorised Limit to allow for unusual cash movements.

Operational Boundary	2024/25 Estimate	2024/25 Estimate	2025/26 Estimate
Borrowing	£230m	£230m	£240m
Other long term liabilities	£20m	£20m	£20m
Total	£250m	£250m	£260m

Borrowing in advance of need.

The Executive Director:Resources may do this under delegated power where, for instance, a sharp rise in interest rates is expected, and so borrowing early at fixed interest rates will be economically beneficial or meet budgetary constraints. Whilst the Executive Director:Resources will adopt a cautious approach to any such borrowing, where there is a clear business case for doing so borrowing may be undertaken to fund the approved capital programme or to fund future debt maturities. Risks associated with any advance borrowing activity will be subject to appraisal in advance and subsequent reporting through the mid-year or annual reporting mechanism.

Expected Movement in Interest Rates

The Council's treasury advisor, Link Asset Services has provided the following forecast:

Date	BANK RATE	5yr PWLB	10yr PWLB	25yr PWLB	50yr PWLB
Dec-23	5.25	5.00	5.10	5.50	5.30
Mar-24	5.25	4.90	5.00	5.30	5.10
Jun-24	5.25	4.70	4.80	5.10	4.90
Sep-24	5.00	4.40	4.70	4.90	4.70
Dec-24	4.50	4.20	4.40	4.70	4.50
Mar-25	4.00	4.00	4.20	4.50	4.30
Jun-25	3.50	3.80	4.00	4.30	4.10
Sep-25	3.25	3.70	3.80	4.20	4.00

Whilst the Council is in no longer debt-free the level of internal resources has enabled the Council to avoid any new external borrowing since 2018. However this position is no longer sustainable and additional external borrowing will be required in 2024/25 onwards.

The prolonged period of low global interest rates changed markedly from April 2022 onwards, with central banks around the world increasing rates. The first half of 2023/24 saw interest rates rise by a further 100bps, taking the Bank Rate from 4.25% to 5.25% and possibly the peak in the tightening cycle. Short- and Medium-term gilts remain elevated as inflation continually surprised on the upside. Whilst CPI Inflation has fallen from 8.7% in April to 4.7% in October, its lowest rate since February 2022, it is still significantly above the Bank of England target rate of 2.5%. Further, a cooling in labour market conditions has not led to any easing of wage growth, which is still rising at over 7%.

The registering of 0% GDP for Q3 suggests that underlying growth has lost momentum since earlier in the year. Some of the weakness in July was due to there being almost twice as many working days lost to strikes in July (281,000) than in June (160,000). But with output falling in 10 out of the 17 sectors, there is an air of underlying weakness.

As the growing drag from higher interest rates intensifies over the next six months, we think the economy will continue to lose momentum and soon fall into a mild recession. Strong labour demand, fast wage growth and government support have all supported household incomes over the past year. And with CPI inflation past its peak and expected to decline further, the economy has got through the cost-of-living crisis without recession. But even though the worst of the falls in real household disposable incomes are behind us, the phasing out of financial support packages provided by the government during the energy crisis means real incomes are unlikely to grow strongly. Higher interest rates will soon bite harder too. We expect the Bank of England to keep interest rates at the probable peak of 5.25% until the second half of 2024. Mortgage rates are likely to stay above 5.0% for around a year.

In its latest monetary policy meeting on 06 November, the Bank of England left interest rates unchanged at 5.25%. The vote to keep rates on hold was a split vote, 6-3. It is clear that some members of the MPC are still concerned about the stickiness of inflation.

In terms of current market view, pricing suggests that rates will be on hold for some months to come, with easing in the latter half of the financial year.

Investment and borrowing rates

- **Investment returns** are expected to remain stable in 2024/25. As noted above whilst CPI has started to retreat, prices are still increasing and wage inflation continues to act on the market. Whilst further rate hikes are unlikely the focus is on how long the Bank of England will retain rates at their current level.
- **Borrowing interest rates** fell to historically very low rates as a result of the COVID crisis and the quantitative easing operations of the Bank of England however the economic conditions highlighted above reflect a different path in borrowing rates is now in place. The policy of avoiding new borrowing by running down spare cash balances has served local authorities well over the last few years however current rates are significantly higher than the rates achieved by the Council in the borrowing undertaken between 2017 and 2019.

Borrowing Strategy 2024/25

The Council is currently maintaining an under-borrowed position. This means that the capital borrowing need (the Capital Financing Requirement), has not been fully funded with loan debt as cash supporting the Council's reserves, balances and cash flow has been used as a temporary measure. This strategy was prudent when investment returns are low, however the ability to maintain this strategy is challenging as reserves and balances are depleted as part of the Council's budget strategy.

Against this background and the risks within the economic forecast, caution will be adopted with the 2024/25 treasury operations. The Executive Director:Resources will monitor interest rates in financial markets and adopt a pragmatic approach to changing circumstances:

- if it was felt that there was a significant risk of a sharp FALL in long and short term rates then any long term borrowings will be postponed, and potential rescheduling from fixed rate funding into short term borrowing will be considered.
- if it was felt that there was a significant risk of a much sharper RISE in long and short term rates than that currently forecast, perhaps arising from an increase in world economic activity or a further spikes in inflation risks, then the portfolio position will be re-appraised.

The current and short-term economic conditions place considerable challenges on the Council's treasury activities. There is a re-financing need in 2024/25 of PWLB loans taken out in 2017 at rates considerably higher than the original rate. However, with the projection above that interest rates should begin to fall in the second half of the financial year, short-term maturities may be favoured to optimise the Councils long-term borrowing costs. Any decisions will be reported to the Executive at the next available opportunity.

The Council will not borrow more than or in advance of its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure that value for money can be demonstrated and that the Council can ensure the security of such funds.

Debt rescheduling

In this period of uncertainty and historically wild swings in gilt prices over such a short period of time, there may be potential opportunities to generate savings by switching from long-term debt to short-term debt. However, these savings will need to be considered in the light of the current treasury position and the size of the cost of debt repayment (premiums incurred).

The reasons for any rescheduling to take place will include:

- the generation of cash savings and / or discounted cash flow savings;
- helping to fulfil the treasury strategy;
- enhance the balance of the portfolio (amend the maturity profile and/or the balance of volatility).

All rescheduling will be reported to the Executive, at the earliest meeting following its action.

Investment Strategy 2024/25 – 2026/27

Investment Policy

The Department of Levelling Up, Housing and Communities (DLUHC) and CIPFA have extended the meaning of ‘investments’ to include both financial and non-financial investments. This report deals solely with treasury (financial) investments, (as managed by the treasury management team). Non-financial investments, essentially the purchase of income yielding assets and service investments, are covered in the Capital Strategy

The Authority’s investment policy has regard to the following: -

- DLUHC’s Guidance on Local Government Investments (“the Guidance”)
- CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes 2021 (“the Code”)
- CIPFA Treasury Management Guidance Notes 2021

The Council’s investment priorities will be security first, portfolio liquidity second and then yield, (return).

The above guidance from the DLUHC and CIPFA places a high priority on the management of risk. This Authority has adopted a prudent approach to managing risk and defines its risk appetite by the following means: -

1. Minimum acceptable **credit criteria** are applied in order to generate a list of highly creditworthy counterparties. This also enables diversification and thus avoidance of concentration risk. The key ratings used to monitor counterparties are the short term and long-term ratings.
2. Other information: ratings will not be the sole determinant of the quality of an institution; it is important to continually assess and monitor the financial sector on both a micro and macro basis and in relation to the economic and political environments in which institutions operate. The assessment will also take account of information that reflects the opinion of the markets. To achieve this consideration the Council will engage with its advisors to maintain a monitor on market pricing such as “credit default swaps” and overlay that information on top of the credit ratings.
3. Other information sources used will include the financial press, share price and other such information pertaining to the banking sector in order to establish the most robust scrutiny process on the suitability of potential investment counterparties.
4. This authority has defined the list of types of investment instruments that the treasury management team are authorised to use. There are two lists in appendix under the categories of ‘specified’ and ‘non-specified’ investments.
 - **Specified investments** are those with a high level of credit quality and subject to a maturity limit of one year.
 - **Non-specified investments** are those with less high credit quality, may be for periods in excess of one year, and/or are more complex instruments which require greater consideration by members and officers before being authorised for use.

5. Lending and transaction limits, (amounts and maturity), for each counterparty will be set through applying the matrix table shown under the Council's creditworthiness policy
6. This authority has engaged external consultants, (see paragraph 1.5), to provide expert advice on how to optimise an appropriate balance of security, liquidity and yield, given the risk appetite of this authority in the context of the expected level of cash balances and need for liquidity throughout the year.
7. All investments will be denominated in sterling.

Creditworthiness policy

This Council applies the creditworthiness service provided by Link Asset Services. This service employs a sophisticated modelling approach utilising credit ratings from the three main credit rating agencies - Fitch, Moody's and Standard and Poor's. The credit ratings of counterparties are supplemented with the following overlays:

- credit watches and credit outlooks from credit rating agencies;
- CDS spreads to give early warning of likely changes in credit ratings;
- sovereign ratings to select counterparties from only the most creditworthy countries.

This modelling approach combines credit ratings, credit watches and credit outlooks in a weighted scoring system which is then combined with an overlay of CDS spreads for which the end product is a series of colour coded bands which indicate the relative creditworthiness of counterparties. These colour codes are used by the Council to determine the suggested duration for investments. The Council will therefore use counterparties within the following maturities .

Dark pink	5 years for Enhanced money market funds (EMMFs) with a credit score of 1.25
Light pink	5 years for Enhanced money market funds (EMMFs) with a credit score of 1.5
Blue	1 year (only applies to nationalised or semi nationalised UK Banks)
Orange	1 year
Red	6 months
Green	100 days
No colour	not to be used

Annex E(iv)

Y	Pi1	Pi2	P	B	O	R	G	N/C
1	1.25	1.5	2	3	4	5	6	7
Up to 5yrs	Up to 5yrs	Up to 5yrs	Up to 2yrs	Up to 1yr	Up to 1yr	Up to 6mths	Up to 100days	No Colour

	Colour (and long term rating where applicable)	Money and/or % Limit	Time Limit
Banks	orange	£7m	1 yr
Banks – part nationalised	blue	£7m	1 yr
Banks	red	£7m	6 months
Banks	green	£7m	100 days
Banks	No colour	£0m	0 days
Debt Management Account Deposit Facility	AAA	£10m	6 months
Local authorities	n/a	£7m	1 yr
Money Market Funds (CNAV, LVNAV & VNAV)	AAA	£10m	liquid
Enhanced money market funds with a credit score of 1.25	Dark pink / AAA	£10m	liquid
Enhanced money market funds with a credit score of 1.5	Light pink / AAA	£10m	liquid

The creditworthiness service uses a wider array of information than just primary ratings and by using a risk weighted scoring system, does not give undue influence to just one agency's ratings.

Typically the minimum credit ratings criteria the Council use will be a short term rating (Fitch or equivalents) of short term rating F1, long term rating A-, viability rating of A-, and a support rating of 1 There may be occasions when the counterparty ratings from one rating agency are marginally lower than these ratings but may still be used. In these instances consideration will be given to the whole range of ratings available, or other topical market information, to support their use.

All credit ratings will be monitored in real time. The Council is alerted to changes to ratings of all three agencies through its use of our creditworthiness service.

- if a downgrade results in the counterparty / investment scheme no longer meeting the Council's minimum criteria, its further use as a new investment will be withdrawn immediately.
- in addition to the use of credit ratings the Council will be advised of information in movements in credit default swap spreads against the iTraxx benchmark and other market data on a weekly basis. Extreme market movements may result in downgrade of an institution or removal from the Council's lending list.

Sole reliance will not be placed on the use of this external service. In addition this Council will also use market data and market information, information on government support for banks and the credit ratings of that supporting government

In the normal course of the council's cash flow operations it is expected that both Specified and Non-specified investments will be utilised for the control of liquidity as both categories allow for short term investments.

The use of longer term instruments (greater than one year from inception to repayment) will fall in the Non-specified investment category. These instruments will only be used where the Council's liquidity requirements are safeguarded however the current investment limits for 2024/25 restrain all investments to less than 1 year. Any amendment to this strategy will require the credit-criteria to be amended to include a long-term rating. This will be addressed through the formal approval by Council of a revised Treasury Management Strategy and Annual Investment Strategy.

Country and Sector Considerations

Due care will be taken to consider the country, group and sector exposure of the Council's investments. The current investment strategy limits all investments to UK Banks, Building Societies and Local Authorities, in addition to Sterling denominated AAA Money Market Funds.

Economic Investment Considerations

Investments will be made with reference to the core balance and cash flow requirements and the outlook for short-term interest rates. The criteria for choosing counterparties set out above provides a sound approach to investment in "normal" market circumstances. Whilst Members are asked to approve this base criteria above, under the exceptional current market conditions the Executive Director:Resources may temporarily restrict further investment activity to those counterparties considered of higher credit quality than the minimum criteria set out for approval. These restrictions will remain in place until the banking system returns to "normal" conditions. Similarly the time periods for investments will be restricted.

Examples of these restrictions would be the greater use of the Debt Management Deposit Account Facility (a Government body which accepts local authority deposits), Money Market Funds, and strongly rated institutions. The credit criteria have been amended to reflect these facilities.

Treasury Management Limits on Activity

There are four further treasury activity limits, which were previously prudential indicators. The purpose of these are to contain the activity of the treasury function within certain limits, thereby managing risk and reducing the impact of an adverse movement in interest rates. However if these are set to be too restrictive they will impair the opportunities to reduce costs/improve performance. The indicators are:

Upper limits on variable interest rate exposure – This identifies a maximum limit for variable interest rates based upon the debt position net of investments

Upper limits on fixed interest rate exposure – Similar to the previous indicator this covers a maximum limit on fixed interest rates.

Maturity structures of borrowing – These gross limits are set to reduce the Council's exposure to large fixed rate sums falling due for refinancing, and are required for upper and lower limits.

Total principal funds invested for greater than 364 days – These limits are set with regard to the Council’s liquidity requirements and are based on the availability of funds after each year-end. The Council is asked to approve the limits:

	2024/25	2025/26	2026/27
Interest rate Exposures			
	Upper	Upper	Upper
Limits on fixed interest rates based on net debt	£260m	£270m	£270m
Limits on variable interest rates based on net debt	£260m	£270m	£270m
Maturity Structure of fixed interest rate borrowing 2017/18			
	Lower	Upper	
Under 12 months	0%	100%	
12 months to 2 years	0%	100%	
2 years to 5 years	0%	100%	
5 years to 10 years	0%	100%	
10 years and above	0%	100%	
Maximum principal sums invested > 364 days			
Principal sums invested > 364 days	£m 0	£m 0	£m 0

Performance Indicators

The Code of Practice on Treasury Management requires the Council to set performance indicators to assess the adequacy of the treasury function over the year. These are distinct historic indicators, as opposed to the prudential indicators, which are predominantly forward looking. For 2024/25 the relevant benchmark will relate only to investments and will be the Sterling Overnight Index Average (SONIA). The results of these indicators will be reported in the Treasury Annual Report.

Treasury Management Advisers

The Council uses Link Asset Services as its treasury management consultants. The Council recognises that responsibility for treasury management decision remains with the organisation at all times and will ensure that undue reliance is not placed upon our external service providers.

It also recognises that there is value in employing external providers of treasury management services in order to acquire access to specialist skills and resources. The Council will ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented, and subject to regular review.

Member and Officer Training

The increased Member consideration of treasury management matters and the need to ensure officers dealing with treasury management are trained and kept up to date requires a suitable training process for Members and officers. Following the nomination of the Governance and Audit Committee to examine and assess the effectiveness of the Treasury Management Strategy and Policies, initial training was provided and additional training has been undertaken as necessary. Officer training is carried out in accordance with best practice and outlined in TMP 10 Training and Qualifications to ensure that all staff involved in the Treasury Management function are fully equipped to undertake the duties and responsibilities allocated to them.

SPECIFIED INVESTMENTS

All investments listed below must be sterling-denominated.

Investment	Share/ Loan Capital?	Repayable/ Redeemable within 12 months?	Security / Minimum Credit Rating **	Circumstance of use	Maximum period
Debt Management Agency Deposit Facility* (DMADF) * this facility is at present available for investments up to 6 months	No	Yes	Govt-backed	In-house	364 Days
Term deposits with the UK government or with Local Authority (including Parish Councils) in England, Wales, Scotland or Northern Ireland with maturities up to 364 Days	No	Yes	High security although LAs not credit rated.	In-house and by external fund managers subject to the guidelines and parameters agreed with them	364 Days
Term deposits with credit-rated deposit takers (banks and building societies), including callable deposits, with maturities up to 364 Days	No	Yes	<i>As per list of approved Counterparties</i>	In-house and by external fund managers subject to the guidelines and parameters agreed with them	364 Days
Certificates of Deposit issued by credit-rated deposit takers (banks and building societies) : up to 364 Days. <i>Custodial arrangement required prior to purchase</i>	No	Yes	<i>As per list of approved Counterparties</i>	To be used by external fund managers only subject to the guidelines and parameters agreed with them	364 Days
Gilts : up to 364 Days	No	Yes	Govt-backed	To be used by external fund managers only subject to the guidelines and parameters agreed with them	364 Days

CALCULATION OF COUNCIL TAX BASE – 2024/25

Summary

- 1.1 The Council is required to consider and approve the calculation of the Council Tax Base which has to be calculated in accordance with the Local Authorities (Calculation of Council Tax Base) Regulations 2012.
- 1.2 In accordance with the Local Government Act 2003, and in the circumstances provided for in subsequent regulations, for the financial year 2024/25 **it is recommended that, no new locally defined discounts are created in 2024/25 and no change is made to the local Council Tax Support Scheme**. Specifically, this means that:
 - 1.2.1 The Council Tax discount granted in for properties which are nobody's sole or main residence (commonly referred to as "second homes") will remain at 0%.
 - 1.2.2 The Council Tax discount granted in 2024/25 for properties that are empty and substantially unfurnished will remain at 0%.
 - 1.2.3 The Council Tax discount granted in 2024/25 for properties requiring or undergoing major repair or structural alterations will remain at 0%.
 - 1.2.4 The amount of Council Tax payable for long-term empty dwellings which have been unoccupied and substantially unfurnished for a continuous period of at least 2 years will continue to attract a 100% premium.
 - 1.2.5 The Council Tax Support Scheme will remain as an income based assessment with 8 bands.
 - 1.2.6 7 bands will be based on weekly net income:
 - Band 1: 75% discount for households earning up to £80 or in receipt of a passported benefit
 - Band 2: 70% discount for households earning £80.01 - £140.00
 - Band 3: 60% discount for households earning £140.01 - £200.00
 - Band 4: 50% discount for households earning £200.01 - £260.00
 - Band 5: 40% discount for households earning £260.01 - £320.00
 - Band 6: 30% discount for households earning £320.01 - £380.00
 - Band 7: 20% discount for households earning £380.01 - £440.00
 - 1.2.7 Where a claimant would normally be assessed as being in Income bands 1-7 but the claimant falls into a vulnerable group, the claimant will fall into the eighth protected band and receive 80% discount. A vulnerable group is defined as where either the applicant or in the case of a couple their partner count as disabled or long term sick and their incomes trigger an award of Disability Premium, Enhanced Disability Premium or Severe Disability Premium
- 1.3 In accordance with the Local Authorities (Calculation of Council Tax Base) Regulations 2012, **the amount calculated as the Bracknell Forest Council Tax Base for 2024/25**

shall be **49,694**, with the relevant sum for each town and parish council area being as follows, compared with the 2023/24 calculation;

	Tax Base 2023/24	Tax Base 2024/25
Binfield	4,636	4,799
Bracknell	20,614	20,968
Crowthorne	3,242	3,429
Sandhurst	7,986	7,999
Warfield	5,349	5,538
Winkfield	6,929	6,961
	<hr/>	<hr/>
	48,756	49,694

Background

- 2.1 The Council is required under the Local Authorities (Calculation of Council Tax Base) Regulations 2012 to classify all dwellings in the Borough into the appropriate category of Bands A to H, according to their valuation. It must then apply the stated percentages to calculate the “relevant amount”, i.e. the number of Band D equivalent properties for 2023/24 for each valuation band. The Band D percentages to calculate the number of Band D equivalent properties is listed below:-

Band A	66.6%
Band B	77.7%
Band C	88.8%
Band D	100.0%
Band E	122.2%
Band F	144.4%
Band G	166.6%
Band H	200.0%

- 2.2 Regulation 3 of these regulations then requires the Council to multiply the “relevant amount” by the assumed collection rate, to ascertain the Council Tax Base for the year. The collection rate makes allowance for both new properties and general losses such as additional discounts and exemptions.
- 2.3 There are currently 17 different circumstances where residents are not counted for Council Tax purposes, including certain full time students, the severely mentally impaired, patients in homes and carers. Where there is only one other adult resident in the property, apart from the person who is not counted, a 25% discount will apply. Where all the adult residents are not counted, the discount is 50%.
- 2.4 There are also 21 different reasons for granting complete exemption to taxpayers, including those occupied only by full time students or those left empty by persons living elsewhere to receive care.
- 2.5 The Local Government Act 2003 provides that billing authorities have the power to grant locally defined discounts. Examples provided by the Government where a local discount

may be created include as a result of local events such as flooding or natural disasters, or because of an outbreak of the foot and mouth disease.

- 2.6 The Welfare Reform Act 2012 abolished the national Council Tax Benefit Scheme from 31 March 2013, replacing the national scheme with a localised Council Tax Reduction Scheme. The Council Tax Reduction Scheme forms part of a billing authority's Council Tax base.
- 2.7 That working age households who apply for Local Council Tax Benefit will only be awarded backdated Local Council Tax Benefit for a maximum of three months from date of application if there was good cause as to why they did not make an earlier application.
- 2.8 For 2024/25 the cost of the Council Tax Reduction Scheme has been apportioned between the minor precepting authorities based upon the amounts of Council Tax Reduction expected to be granted in 2024/25. The reductions in Band D equivalents are as follows:-

Binfield	116.1
Bracknell	1747.9
Crowthorne	84.3
Sandhurst	255.7
Warfield	148.3
Winkfield	196.7
Total	<u>2549.0</u>

- 2.9 The Council Tax Base calculation for the following financial year includes the actual Council Tax Base as at 30 November plus an allowance for expected new properties joining the list during the 16 months ahead. Information gathered from various sources indicates that the following allowances should be made for new properties becoming occupied during the period to 31 March 2025, equating to full year band "D" equivalents:-

Binfield	111.9
Bracknell	472.0
Crowthorne	158.1
Sandhurst	4.2
Warfield	204.1
Winkfield	37.6
Total	<u>987.9</u>

- 2.10 An allowance of 0.45% has been provided for losses due to additional discounts and exemptions, empty properties (voids), valuation appeals, absconds and bankruptcies. This is a value judgement based on past experience of Council Tax collection together with management information, which shows a gradual increase in the number of properties occupied by a single person and the number of households falling into arrears.

Initial Equalities Screening Record Form

Date of Screening: 1 December 2023	Directorate: Resources	Section: HR/OD	
1. Activity to be assessed	Implementing Car Parking Charges from 1 April 2024

4. Officer responsible for the screening	Paul Young		
5. Who are the members of the screening team?	Paul Young, Alison Beswick		
6. What is the purpose of the activity?	As 1.		
7. Who is the activity designed to benefit/target?	The implementation of parking charges, after a long period where employees benefited from free car parking, supports the council's climate change aspirations whilst at the same time providing a low-cost car parking option for staff who use their personal vehicle to attend the workplace.		
Protected Characteristics	Please tick yes or no	Is there an impact?	What evidence do you have to support this?
8. Disability Equality – this can include physical, mental health, learning or sensory disabilities and includes conditions such as dementia as well as hearing or sight impairment.	N	No, employees with a declared disability will be given access to park at the TS car park and pay the same rate as all others parking in TS.	5.03% of employees have declared a disability. All employees with a declared disability who have requested parking at TS have been authorised to do so. Whilst the parking charge at TS is higher at £10 for those staff on senior salaries than it is at Braccan Walk (£5) it is considered that the cost is still minimal so unlikely to have a significant impact on those staff with a declared disability.
9. Racial equality	N	No, the implementation of parking charges applies based on where employees park irrespective of their race/ethnicity.	The car parking charges are being applied based on the location of the car park and which pay structure staff are employed under. As such, there will be no detrimental impact on any member of staff with a protected characteristic.
10. Gender equality	N	No, the implementation of parking charges applies based on where employees park irrespective of their gender.	As 9. Above.

11. Sexual orientation equality		N	No, the implementation of parking charges applies based on where employees park irrespective of their sexual orientation.	As 9 above.
12. Gender re-assignment		N	No, the implementation of parking charges applies based on where employees park irrespective of whether there are undergoing gender reassignment.	As 9 above.
13. Age equality		N	No, the implementation of parking charges applies based on where employees park irrespective of their age.	As 9 above.
14. Religion and belief equality		N	No, the implementation of parking charges applies based on where employees park irrespective of their religion/belief.	As 9 above.
15. Pregnancy and maternity equality		N	No, the implementation of parking charges applies based on where employees park.	As 9 above. However, it should be noted that is an employee requests parking at TS due to mobility issues related to pregnancy they would likely be granted temporary access to the TS car park and thus pay the additional rate. As outlined in 8. Above this is not considered a significant impact on these staff members.
16. Marriage and civil partnership equality		N	No, the implementation of parking charges applies based on where employees park irrespective of their marital status.	As 9 above.
17. Please give details of any other potential impacts on any other group (e.g. those on lower incomes/carers/ex-offenders, armed forces communities) and on promoting good community relations.	<p>None anticipated. The implementation of a nominal payment for car parking is to support the Council's climate change aspirations not to generate significant income and the pricing structure reflects this.</p> <p>Whilst there is a higher charge for those staff who park in TS they can opt to park at Braccan Walk and pay a lower rate should they choose to do so. However, is should be noted that the charge for parking at TS is considered nominal in itself and it is not considered will have a significant financial impact on staff eligible to park there.</p>			
18. If an adverse/negative impact has been identified can it be justified on grounds of promoting equality of opportunity for one group or for any other reason?	None identified.			
19. If there is any difference in the impact of the activity when considered for each of the equality groups listed in 8 – 14 above; how significant is the	None anticipated.			

difference in terms of its nature and the number of people likely to be affected?			
20. Could the impact constitute unlawful discrimination in relation to any of the Equality Duties?		No	The implementation of parking charges is based on parking location and applied equally to all members of staff, except those on senior salaries.
21. What further information or data is required to better understand the impact? Where and how can that information be obtained?	None identified.		
22. On the basis of sections 7 – 17 above is a full impact assessment required?		N	As there is no adverse impact expected a full EQiA is not required.
23. If a full impact assessment is not required; what actions will you take to reduce or remove any potential differential/adverse impact, to further promote equality of opportunity through this activity or to obtain further information or data? Initial Equalities Screening Record Form

Date of Screening: 21/11/23	Directorate: Chief Executive's Office		Section: Communications and Marketing
1. Activity to be assessed	<p>Reduction of Bracknell Forest Council's residents' magazine (currently called Town & Country) from twice a year to once a year. It is proposed to send this out in printed format in the spring annually from 2024 to all households, with a digital copy available on the council's website.</p> <p>This would mean that the autumn/ winter edition is stopped. The magazine is currently delivered to around 50,000 households in spring and autumn/ winter. It is also available via an accessible PDF via the council's website.</p> <p>The reduction has been proposed as part of the council's budget setting process for 2024/25. It will save the council around £10,000 per annum in delivery and print costs.</p> <p>It also has environmental benefits – reducing the number of printed copies will reduce the council's carbon footprint. This is a main priority for the council as it moves towards net zero and outlined in the 2023-27 Council Plan.</p> <p>The council also produces a frequent digital residents' magazine called Town & Country Extra (currently produced weekly), which is free to sign up to and available to all residents. This reduction will not impact that publication.</p>		
2. What is the activity?	<input checked="" type="checkbox"/> Review		
3. Is it a new or existing activity?	<input checked="" type="checkbox"/> Existing		
4. Officer responsible for the screening	Alayna Razzell		
5. Who are the members of the screening team?	Michelle Palmer, Harjit Hunjan.		
6. What is the purpose of the activity?	<p>The council's magazine gives an overview of important and/ or strategic messaging. It provides information on calls to action/ warning and informing activities/ actions, and sign posting to further information.</p> <p>Reducing the number of editions will not substantially change the type of information in the magazine.</p>		
7. Who is the activity designed to benefit/target?	It is for all households but is especially important for those who are digitally excluded or do not engage with the council via other mediums.		
Protected Characteristics	Please tick yes or no	Is there an impact? What kind of equality impact may there be? Is the impact positive or adverse or is there a potential for both?	What evidence do you have to support this? E.g. equality monitoring data, consultation results, customer satisfaction information etc Please add a narrative to justify your claims around impacts and describe the analysis and interpretation of

Annexe I

			If the impact is neutral, please give a reason.	evidence to support your conclusion as this will inform members decision making, include consultation results/satisfaction information/equality monitoring data
8. Disability Equality – this can include physical, mental health, learning or sensory disabilities and includes conditions such as dementia as well as hearing or sight impairment.	Y		Potentially it could impact on these groups if they rely on getting messages related to their protected characteristic/ services available to them and do not engage on other platforms.	There is an on-going programme of regular engagement with individual VCS (Voluntary and Community Sector) groups, through specific engagement events and via partnership forums to inform residents e.g., the Council's Disability Access Advisory Forum. Information is also shared with town and parish councils for distribution through their networks.
9. Racial equality		N	No disproportionate impact anticipated	
10. Gender equality		N	No disproportionate impact anticipated	
11. Sexual orientation equality		N	No disproportionate impact anticipated	
12. Gender re-assignment		N	No disproportionate impact anticipated	
13. Age equality	Y		Generally, older people are less likely to gain council information and signposting via online channels. Reducing the printed copy to once a year reduces their access to council information via one of their most preferred mediums.	33% of the borough's population are over 65+ age (census 2021) Town & Country residents' surveys have previously shown that the magazine is read most widely by people in older age brackets. Likewise, the council's social media survey showed that people in older age brackets were less likely to use that as a source of information. There is an on-going programme of regular engagement and information sharing with individual VCS groups representing, advocating for and providing services to older people. Responses to BFC COVID -19 Residents' Survey (April 2021) indicated that 94% of residents used the internet; 98% of residents aged 18-34 are confident compared with 76% of residents aged 55 and over to access services online.
14. Religion and belief equality		N	No disproportionate impact anticipated	

15. Pregnancy and maternity equality		N	No disproportionate impact anticipated	
16. Marriage and civil partnership equality		N	No disproportionate impact anticipated	
17. Please give details of any other potential impacts on any other group (e.g. those on lower incomes/carers/ex-offenders, armed forces communities) and on promoting good community relations.	It could potentially impact on people on lower incomes if they are unable to access the internet as it reduces their access to information which will then be mostly available online. Cutting their access in half. Research suggests that there are few people in the borough within this category, but it cannot be ruled out completely. Free internet access is available through Bracknell Forest Council libraries.			
18. If an adverse/negative impact has been identified can it be justified on grounds of promoting equality of opportunity for one group or for any other reason?	N/A			
19. If there is any difference in the impact of the activity when considered for each of the equality groups listed in 8 – 14 above; how significant is the difference in terms of its nature and the number of people likely to be affected?	Residents aged 55 and above are less likely to use the internet in general and access services online There are very few households without internet access or an electronic device in Bracknell Forest (no areas in highest three deciles of Multiple Deprivation Index 2021). So, barriers are more likely to be around digital skill and confidence. There is training available via libraries, the Open Learning Centre and the VCFS to support older people with digital inclusion to learn how to use computers and the internet and increase their confidence. Bracknell Forest library members can use the computers free of charge for at least 1 hour a day.			
20. Could the impact constitute unlawful discrimination in relation to any of the Equality Duties?		N		
21. What further information or data is required to better understand the impact? Where and how can that information be obtained?	N/A			
22. On the basis of sections 7 – 17 above is a full impact assessment required?		N	While this reduces access to information for some groups, it does not stop access as the magazine will still be published once a year. There is also information available in other printed formats like newspapers/ leaflets/ posters for certain services and projects.	

23. If a full impact assessment is not required; what actions will you take to reduce or remove any potential differential/adverse impact, to further promote equality of opportunity through this activity or to obtain further information or data? Please complete the action plan in full, adding more rows as needed.
